Sir / Madam

I am writing to you about the recommendation by QCA in its report on the pricing of Gladstone Area Water Board GAWB.

I believe this report if carried out will mean I will have to pay possibly more than \$2000.00 a year for water!

I am renting my home and my landlord would be forced to put up the rent to cover their costs!

As housing valuations "I believed" have halved and I am on a fixed income of approx

\$250.00 a week I would be forced to move and would find this impossible

I have a garden & native birds i.e. "King Parrot, Lorokits etc." which would surly go "as

will this little town" if this pricing goes through in its present form it is unaffordable and unfair

please do what you must do to SAVE OUR TOWN

yours for consideration

Gloria Beckett
