To Whom It May Concern, I am a resident of Gladstone. I recently read an article in the Observer (Gladstone newspaper) that the Water Board was leading at increasing the cost of what we pay for water.

The proposed rates is outrageous. We have all cut down on our consumption of water as the price of water has increased since the drought 2 yrs ago. Now the dam has plenty of water in it we have cut down on our consumption of water, Q.A.L. is using recycled water. The water board is not making a profit. It does not need to make a profit, it is an essential service. God provides the rain free. Please leave our water rates alone.
