Peter & Suellen Tappenden  
29 Gladstone Street  
Mount Larcom Q 4695

To Whom it may concern

We believe that proposed water rates rise from 65c k/litre to \$8.69 k/litre for our town is completely unaffordable. It would make it unfeasible to live in Mt. Larcom and as the valuation of property will drop so low that we would never recoup our finances to relocate.

Is there a reason for the stupidity of the Queensland Competition Authority to wipe out a township.

We believe if this was to go ahead there will be no future for us or the town.

Yours Sincerely,

Suellen Tappenden  
PJ Tapp
