Dear Paul

Standard Rail Connection Agreement

We refer to the Authority's advice on 21 March 2013 that it has proposed its own Standard Rail Connection Agreement (**SRCA**) pursuant to section 8.4(d)(ii) of the Aurizon Network rail access undertaking.

The Queensland Resources Council (**QRC**) has previously provided two submissions in relation to the SRCA.

The QRC supports the SRCA proposed by the Authority on 21 March 2013. Other than as noted below, the QRC do not propose any changes to that proposed SCRA.

The QRC notes that there is a minor typographical error in clause 18.4(c) of the SRCA. In that clause, the word "need" should be replaced with "not".

Yours sincerely

Michael Roche
Chief Executive
Queensland Resources Council
