Preamble

Queensland Rail was incorporated on 11 July 2008 and is a wholly government owned corporation. Queensland Rail was originally named QR Passenger Pty Ltd and was a subsidiary of Aurizon Operations Limited (formerly QR Limited) responsible for the Above Rail passenger Train Services.

On 30 June 2010, as part of the restructure and privatisation process for Aurizon (formerly QR National):

- Queensland Rail became an independent business – separate from the Aurizon corporate group; and
- the rail network previously managed by Aurizon Network (formerly QR Network Pty Ltd) (now part of the Aurizon corporate group) was divided between Aurizon Network and Queensland Rail.

This resulted in Aurizon Network continuing as the Railway Manager of the rail network in the Central Queensland Coal Region (including part of the North Coast Line) and Queensland Rail becoming the owner and Railway Manager of the remainder of the rail network previously managed by Aurizon Network.

Therefore, from 30 June 2010, Queensland Rail changed from a business which principally operated passenger Trains to a business that also manages a rail network including approximately 8,000 km of Queensland railway track used by freight and passenger Trains.

Queensland Rail's major businesses include passenger Trains (including inner-city commuter and long distance trains), rail holidays, travel centres and managing access to its rail network for a wide variety of Trains including for agricultural products, passengers, general freight, bulk minerals and coal. The needs of Trains on Queensland Rail's network vary greatly due to their different supply chain dynamics, geographic locations, rail corridor characteristics and interactions with other rail traffics.

~~Queensland Rail is a passenger Operator, responsible for the management and operation of inner city commuter (City network) and long distance passenger (Travel network) train services, and a Railway Manager, responsible for approximately 8,000 kilometres of track and associated rail infrastructure in Queensland.~~

~~As a Railway Manager, Queensland Rail is responsible for granting, maintaining and managing Access to its Network. Access is provided to a wide range of traffic types including Trains for agricultural products, passengers, intermodal and general freight, bulk minerals and coal.~~

While Queensland Rail's responsibilities regarding passenger Trains are important, the provision of Access to the Network for freight Trains is also a significant activity for

Queensland Rail. Queensland Rail seeks to provide a safe and efficient rail based transport option for freight.

Much of Queensland Rail's network is supported by Transport Service Payments from the Queensland Government. The absence of these Transport Service Payments would result in large parts of the rail network being commercially unviable.

Queensland Rail competes with road transport for most non-coal Train Services as well as coastal shipping, air transport, slurry pipelines and other transport options. In this sense, a large part of Queensland Rail's network business is not truly monopolistic as it is actively competing with other transport modes.

As part of Aurizon Operations Limited's restructure associated with the formation and privatisation of Aurizon, the 2008 Undertaking, with various modifications, was made to apply to Queensland Rail under *Infrastructure Investment (Asset Restructuring and Disposal) Act 2009* (Qld). The 2008 Undertaking's application to Queensland Rail will be superseded by this Undertaking on its approval by the QCA.

This Undertaking is a voluntary access undertaking in accordance with the provisions of the *Queensland Competition Authority Act 1997* (Qld) in relation to the declared service under section 250(1)(b) of the QCA Act. This Undertaking has been developed following extensive consultation with key stakeholders. It provides a balanced approach to the provision of Access and a framework (based on a negotiate/arbitrate model) to manage negotiations in an efficient and transparent manner for Operators seeking Access to Queensland Rail's Network including addressing matters such as:

- the process for seeking Access in relation to the Network;
- the pricing principles for Access Charges including Reference Tariffs for coal carrying Train Services on the West Moreton System;
- Network Management Principles for the scheduling and prioritisation of Train Services;
- reporting obligations and dispute resolution;
- a Standard Access Agreement for coal carrying Train Services on the West Moreton System; and
- the principles applying to other Access Agreements.

~~—The framework is based on a negotiate/arbitrate model and provides a balanced approach to the provision of Access.~~

Part 1 Application and scope

1.1 Duration

This Undertaking is effective during the Term.

1.2 Scope

1.2.1 Application of this Undertaking

- (a) Subject to **clause 1.2.1(b)**, this Undertaking applies to negotiations between Queensland Rail and Access Seekers in relation to Access Rights.
- (b) Despite any other provision in this Undertaking:
 - (i) this Undertaking does not apply:
 - (A) to the negotiation or provision of services other than Access; ~~or~~
 - (B) to any matter involving an Access Holder or an Access Agreement, to the extent that compliance with this Undertaking is inconsistent with the relevant Access Agreement; or
 - ~~(B)~~(C) to any rail transport infrastructure (as defined in the TIA), including but not limited to the track, signalling and electrical overhead traction system (if applicable) for which Queensland Rail is the Railway Manager but which is not owned by Queensland Rail or in respect of which Queensland Rail is not entitled to grant rights of access; and
 - (ii) Queensland Rail is not obliged to comply with this Undertaking to the extent that it is inconsistent with Queensland Rail's compliance with its Passenger Priority Obligations and Preserved Train Path Obligations.
- (c) Nothing in this Undertaking requires Queensland Rail or any other party to an Access Agreement executed before the Approval Date to vary a term or provision of that Access Agreement.
- (d) Nothing in this Undertaking affects, and this Undertaking is subject to, Queensland Rail's rights under the QCA Act.

1.2.2 Procurement of services other than Access

Unless Queensland Rail otherwise agrees, Access Seekers are responsible for procuring any services other than Access, including Above Rail Services, required for the operation of Train Services.

1.2.3 Line diagrams

Queensland Rail will:

- (a) publish on its website line diagrams showing its rail network including:
 - (i) the parts of that rail network comprising the Network;
 - (ii) existing Private Infrastructure connection points to the Network; and
 - (iii) a description of the amendments made to the line diagrams (if any) since the last version of those line diagrams;
- (b) review and, if applicable, amend the line diagrams (at least every six months) during the Term; and
- (c) notify the QCA at no more than six monthly intervals during the Term of any amendments to the line diagrams during that time interval.

1.3 Consistency and differentiation

- (a) This Undertaking will be applied in a manner that is consistent between Access Seekers in the same circumstances.
- (b) Queensland Rail will comply with its obligations under the QCA Act (in particular, under sections 100 and 168C of the QCA Act) in relation to not unfairly differentiating between Access Seekers or between Access Holders.

1.4 Extensions

1.4.1 Obligation to construct Extensions

- (a) Subject to ~~clauses 1.4.2 to 1.4.6~~ ~~1.4.2 and 1.4.3~~, if:
 - (i) an Extension is necessary to provide the Additional Capacity required to grant Access Rights requested by an Access Seeker; and
 - (ii) Queensland Rail (in its absolute discretion) is not willing or able to fund the construction of the Extension,

then Queensland Rail is ~~only not~~ obliged to construct the Extension ~~if~~ unless all of the following are satisfied:

~~(iii) — all of the following are satisfied:~~

(iii) _____ the Access Seeker;

(A) _____ agrees, ~~and satisfies Queensland Rail that it has the financial capacity,~~ to provide funding (in advance) to Queensland Rail on terms and conditions satisfactory to Queensland Rail, for the costs and expenses to be paid or incurred by

Queensland Rail in connection with constructing the Extension; and

~~(A)~~(B) satisfies Queensland Rail that it has the financial capacity to provide that funding;

~~(B)~~(iv) Queensland Rail bears no cost or risk in relation to constructing, owning, operating or managing the Extension;

~~(C)~~(v) if required by Queensland Rail, the Access Seeker has obtained or will obtain all necessary Authorisations and other consents required for Queensland Rail to construct the Extension; ~~and~~

~~(D)~~(vi) if required by Queensland Rail, the Access Seeker has acquired or procured for Queensland Rail all of the rights and interests in land or any thing that in Queensland Rail's opinion are necessary to construct, own, operate and manage the Extension, (on terms satisfactory to Queensland Rail) including, for example, the inclusion of additional land into Queensland Rail's land tenure arrangements with the State relating to the Network;

~~(iv)~~(vii) in Queensland Rail's opinion (~~in its absolute discretion~~ acting reasonably), the Extension (including constructing the Extension):

- (A) is technically feasible;
- (B) is consistent with the safe and reliable provision of Access and operation of the Network;
- (C) does not impact on the safety of any person maintaining, operating or using the Network;
- (D) does not adversely affect Capacity;
- (E) complies with Queensland Rail's engineering, operational and other requirements; and
- (F) does not adversely affect Queensland Rail's legitimate business interests (and Queensland Rail's legitimate business interests are otherwise protected);

~~(v) — both of the following have been satisfied:~~

~~(A)~~(viii) Access Agreements have been executed with Queensland Rail for the Additional Capacity that is expected to be created by the Extension on terms and conditions satisfactory to Queensland Rail; ~~and~~

~~(B)~~(ix) except to the extent expressly agreed otherwise by Queensland Rail (in its absolute discretion), those Access Agreements are or have become unconditional except for

conditions relating to the construction of the Extension or the creation of the relevant Additional Capacity; and

~~(vi)~~(x) all construction, funding, operational and other arrangements relating to the Extension (including ~~any of~~ the matters referred to ~~above in clauses 1.4.1(a)(iii) to (v)~~) have been entered into by the Access Seeker (or, if applicable, the Access Seeker's Customer) and ~~with, or for the benefit of,~~ Queensland Rail (and are or have become unconditional) except to the extent expressly agreed otherwise by Queensland Rail (in its absolute discretion).

- (b) For clarity, if Queensland Rail is not willing or able to fund the construction of an Extension, then Queensland Rail will:
- (i) discuss with the relevant Access Seeker (or that Access Seeker's Customer) options for that Access Seeker (or that Access Seeker's Customer) to provide funding for the Extension; and
 - (ii) use reasonable endeavours to negotiate, on a timely basis, and, if terms are agreed, enter into arrangements with that Access Seeker or that Access Seeker's Customer (as applicable) (User) in relation to the funding of the Extension (Funding Agreement).

1.4.2 Funding Agreements

Without limitation to clauses 1.4.1 and clauses 1.4.3 to 1.4.6, a Funding Agreement must, unless otherwise agreed by Queensland Rail and the relevant User:

- (a) be consistent with the terms of this Undertaking;
- (b) not provide for Queensland Rail to obtain a greater return on capital than that included in Access Charges in accordance with this Undertaking;
- (c) result in the transaction being structured in a reasonable way that does not adversely affect Queensland Rail in respect of tax, duty and accounting treatments;
- (d) ensure Queensland Rail's legitimate business interests are protected and not adversely affected;
- (e) not result in Queensland Rail bearing any cost or risk:
 - (i) in relation to constructing, owning, operating or managing an Extension; or
 - (ii) as a result of the structure or terms of the Funding Agreement;

- (f) require Queensland Rail to use reasonable endeavours to ensure that an Extension is:
 - (i) constructed efficiently and in accordance with Prudent Practices taking into account all of the relevant circumstances (including Queensland Rail’s relevant safety and construction requirements);
 - (ii) operated and managed by Queensland Rail in a manner that is consistent with Queensland Rail’s operation and management of the Network but subject to all of the relevant circumstances (including the specific operational and management needs of the Extension and the needs of existing Access Holders); and
- (g) satisfy the requirements set out in **clause 1.4.3.**

1.4.3 Rebates

- (a) A Funding Agreement must provide for an arrangement whereby, if the User has agreed with Queensland Rail to contribute funds to the construction of an Extension, and contributes funds for that construction, then, to the extent that Queensland Rail receives Access Charges relating to the use of that Extension by Train Services, Queensland Rail will rebate that part of those Access Charges that is a return of, or on, capital expended in relation to that Extension that relates directly to the contribution provided to Queensland Rail by the User in respect of that Extension.
- (b) **clause 1.4.3(a)** does not apply:
 - (i) to the extent that an Access Holder who has not contributed to the funding of the Extension uses the Extension but does not directly benefit from the Additional Capacity arising from that Extension – that is, if the Extension had not been constructed, then the Access Holder could still have been granted Access;
 - (ii) to the extent that Queensland Rail is adversely affected;
 - (iii) after the time when the rebates paid to the User under **clause 1.4.3(a)**, in aggregate, (but excluding all amounts that are a return on capital rather than a return of capital) equal the User’s contributed funds in relation to the relevant Extension; and
 - (iv) to the extent that compliance with **clause 1.4.3(a)** would have the effect of Queensland Rail not receiving any amount that it is entitled to in relation to:
 - (A) owning, operating, managing or investing in the Network (including for maintenance costs); or

(B) any part of the Network excluding that part of the Network to the extent that it relates directly to the User's funding.

- (c) For clarity, a dispute between an Access Seeker and Queensland Rail in relation to the negotiation of a Funding Agreement is subject to the dispute resolution process under clause 6.1.

~~1.4.2~~ **1.4.4 Construction, ownership, operation and management of Extensions**

An Extension which is funded by an entity other than Queensland Rail will be constructed, owned, operated and managed by Queensland Rail unless otherwise agreed or required by Queensland Rail (in its absolute discretion).

~~1.4.3~~ **1.4.5 No restriction**

Nothing in clauses 1.4.1, 1.4.2 or 1.4.3:

- (a) obliges Queensland Rail to bear any cost or risk in relation to constructing, owning, operating or managing an Extension;
- (b) prevents or otherwise restricts Queensland Rail and an Access Seeker (in each party's absolute discretion) from entering into arrangements relating to ~~or in connection with~~ the funding or construction of an Extension necessary to provide Additional Capacity required to grant Access Rights requested by that Access Seeker; or
- (c) restricts, ~~fetters~~ or otherwise limits Queensland Rail's ability to fund and construct Extensions and otherwise invest in the Network (in its absolute discretion).

1.4.6 Funding Agreement Register

- (a) Queensland Rail will maintain a register of Funding Agreements (Funding Agreement Register).
- ~~(d)~~ (b) On request by the QCA, Queensland Rail must provide a copy of the Funding Agreement Register to the QCA for the purposes of resolving a Dispute under clause 6.1.

Part 2 Negotiation process

2.1 Preparing and submitting an Access Application

2.1.1 Access Applications

- (a) A request for Access Rights must be submitted to Queensland Rail in the form of an Access Application.
- (b) Queensland Rail will publish on its website the application forms for Access Applications (which may identify different requirements for different types of Train Services).
- (c) An Access Seeker must, when submitting an Access Application, unconditionally and irrevocably agree to comply with the requirements, obligations and processes in this Undertaking relating to it or its Access Application and if the Access Seeker does not do so then Queensland Rail may refuse to accept the Access Application.

2.1.2 Preliminary discussions

An Access Seeker may request initial meetings with Queensland Rail, prior to submitting an Access Application, to discuss the Access Application and to clarify any matters relating to the negotiation process.

2.1.3 Preliminary information

Subject to **clause 2.2.2(b)**, Queensland Rail will provide to an Access Seeker information¹ requested by that Access Seeker where the Access Seeker can reasonably demonstrate the need for the information for the purpose of preparing its Access Application provided that:

- (a) doing so will not breach a confidentiality obligation binding on Queensland Rail; and
- (b) the information is ordinarily and freely available to Queensland Rail.

2.2 Confidentiality

2.2.1 Obligation to keep Confidential Information confidential

- (a) Subject to **clause 2.2.1(b)**, Queensland Rail and each Access Seeker (by submitting an Access Application) acknowledge, as a Recipient, that Confidential Information disclosed to it must:
 - (i) be treated as and kept confidential;
 - (ii) only be used for the purpose for which it was disclosed;
 - (iii) be treated as the property of the Disclosing Party; and

¹ Such as, path length availability, Available Capacity, axle load limitations, maximum speeds, a description of the relevant part of the Network for which Access Rights are sought, infrastructure characteristics, nominated sectional running times and applicable safeworking requirements.

- (iv) only be disclosed in accordance with this Undertaking or a confidentiality agreement between the parties.
- (b) A Recipient of Confidential Information is not required to comply with **clause 2.2.1(a)** in relation to a disclosure or use of Confidential Information to the extent that:
 - (i) the Disclosing Party has given its written consent (which must not be unreasonably withheld) to that disclosure or use; or
 - (ii) another Confidentiality Exception applies to that disclosure or use.

2.2.2 Requirement for confidentiality agreement

- (a) ~~Either of~~ Queensland Rail or the relevant Access Seeker may require the other to enter into a confidentiality agreement and, if so, the parties must act reasonably and promptly to negotiate and execute such an agreement.
- (b) Neither Queensland Rail nor an Access Seeker is obliged to disclose Confidential Information to the other unless a confidentiality agreement on terms satisfactory to it (acting reasonably) has been executed.

2.2.3 Responsibility for disclosure

If a Recipient of Confidential Information discloses all or part of that Confidential Information to:

- (a) the directors, company secretary, officers or employees of the Recipient or a Related Party of the Recipient; or
- (b) the Recipient's solicitors, barristers, accountants, technical consultants or other advisers;

under a Confidentiality Exception, then the Recipient:

- (c) must use its best endeavours to ensure that person keeps the Confidential Information confidential; and
- (d) is responsible for the actions and omissions of that person in relation to the Confidential Information as though those actions and omissions were the Recipient's.

2.3 Acknowledgment of an Access Application

2.3.1 Requests for additional information or clarification

Queensland Rail may require the Access Seeker to provide additional or clarified information for the purpose of preparing an Indicative Access Proposal. Queensland Rail will notify the Access Seeker of any such requirement within five Business Days after receiving the Access Application.

2.3.2 Acknowledging Access Applications

Within five Business Days after the later of the receipt of:

- (a) an Access Application; or
- (b) the additional or clarified information required under **clause 2.3.1** in respect of that Access Application,

Queensland Rail will, subject to **clauses 2.6.4** and **2.9.3**, give the Access Seeker a written acknowledgement of receipt of the Access Application.

2.4 Provision of an Indicative Access Proposal

2.4.1 Time period for provision of Indicative Access Proposal

Subject to **clauses 2.6.4** and **2.9.3**, Queensland Rail will use reasonable endeavours to provide an Indicative Access Proposal to the Access Seeker:

- (a) within the estimated time period for doing so indicated in the acknowledgement² given under **clause 2.3.2**; or
- (b) if no such time period is indicated in the acknowledgement, within 20 Business Days after giving the acknowledgment under **clause 2.3.2**.

2.4.2 Inclusions in Indicative Access Proposal

The Indicative Access Proposal will, amongst other things:

- (a) set out the results of an indicative Capacity Analysis;
- (b) indicate whether any other Access Seekers have requested Access Rights which, if provided, would limit Queensland Rail's ability to grant Access Rights in accordance with the Indicative Access Proposal; and
- (c) provide a methodology for calculating Access Charges (including an initial estimate of any applicable rates or other inputs for formulae).

2.4.3 Indicative nature

An Indicative Access Proposal is non-binding and, unless it contains express provisions to the contrary, contains arrangements that are only indicative or preliminary in nature. An Indicative Access Proposal does not oblige Queensland Rail to provide Access in accordance with specific terms and conditions (including the methodology for calculating Access Charges or estimated rates and other inputs for formulae) set out in it.

2.5 Notification of intent to negotiate

2.5.1 Access Seeker to give notice of intent to negotiate

If an Access Seeker intends to proceed with its Access Application on the basis of the relevant Indicative Access Proposal, it must, subject to **clause 2.5.2**,

² Queensland Rail will only give such a time estimate in an acknowledgement if Queensland Rail considers that it is not reasonable to provide the Indicative Access Proposal within 20 Business Days after giving the acknowledgement.

give Queensland Rail written notice of its intention to do so as soon as reasonably practicable after receiving the Indicative Access Proposal.

2.5.2 Consequence of late notification of intent

- (a) If an Access Seeker gives the notice referred to in **clause 2.5.1** to Queensland Rail more than 20 Business Days after being given the Indicative Access Proposal, Queensland Rail may review the Indicative Access Proposal and either (in its absolute discretion):
 - (i) give the Access Seeker a revised Indicative Access Proposal; or
 - (ii) proceed on the basis of the existing Indicative Access Proposal.
- (b) If Queensland Rail gives a revised Indicative Access Proposal to an Access Seeker under **clause 2.5.2(a)**, then:
 - (i) the process in this **Part 2** recommences as though the revised Indicative Access Proposal was given to the Access Seeker under **clause 2.4**; and
 - (ii) the Access Seeker must comply with this **clause 2.5** in relation to that revised Indicative Access Proposal.
- (c) If an Access Seeker has not given the notice referred to in **clause 2.5.1** within three months after it was given an Indicative Access Proposal, then Queensland Rail may (in its absolute discretion) reject the relevant Access Application by giving notice of that rejection to the Access Seeker.

2.6 Negotiation of an Access Agreement

2.6.1 The negotiation period

- (a) Subject to **clause 2.5.2**, if an Access Seeker gives Queensland Rail a notice under **clause 2.5.1**, then Queensland Rail and the Access Seeker will commence negotiations as soon as reasonably practicable to progress towards an Access Agreement.
- (b) If negotiations have commenced in accordance with **clause 2.6.1(a)**, the period for negotiations (**Negotiation Period**):
 - (i) starts on the day Queensland Rail was given the notice under **clause 2.5.1** (subject to **clause 2.5.2(b)**); and
 - (ii) ends on the earlier of:
 - (A) execution of an Access Agreement by the parties in relation to the relevant Access Application;
 - (B) Queensland Rail giving the Access Seeker a notice under **clause 2.7.6(a)(iv)(A)**;

- (C) the Access Seeker notifying Queensland Rail that it no longer wishes to proceed with its Access Application;
- (D) the date nine months after the date on which the period for negotiations started, or such later date as agreed by the parties;
- (E) Queensland Rail giving the Access Seeker a Negotiation Cessation Notice; and
- (F) the occurrence of any other event or circumstance where negotiations cease in accordance with this Undertaking.

- (c) Queensland Rail is not obliged to continue negotiations with an Access Seeker after the Negotiation Period for the relevant Access Application has ceased.

2.6.2 Issues to be addressed in negotiations

- (a) During the Negotiation Period, Queensland Rail and the Access Seeker will negotiate, and endeavour to agree, the terms of an Access Agreement. In order to facilitate the negotiation process:
 - (i) subject to **clause 2.2.2(b)**, Queensland Rail will provide to the Access Seeker additional information relevant to the negotiations, as requested by the Access Seeker (acting reasonably) provided that:
 - (A) doing so will not breach a confidentiality obligation binding on Queensland Rail; and
 - (B) the information is ordinarily and freely available to Queensland Rail;
 - (ii) in order to analyse the impacts and requirements of the operations proposed by the Access Seeker, the Access Seeker must:
 - (A) prepare, and submit to Queensland Rail, a draft Operating Plan³ prior to the parties undertaking the Interface Risk Assessment; and
 - (B) finalise the Operating Plan while the Interface Risk Assessment is being undertaken and prior to the development of an IRMP;

³ Queensland Rail will use the Operating Plan to refine and finalise the Train Service Entitlement, the methodology, rates and other inputs for calculating Access Charges and other terms and conditions of the Access Agreement. The Operating Plan will also be used as a basis for any further or refined Capacity Analysis prepared by Queensland Rail.

- (iii) the parties must jointly:
 - (A) undertake an Interface Risk Assessment⁴; and
 - (B) after the Interface Risk Assessment is completed, develop an IRMP;
 - (iv) the Access Seeker must commission a suitably qualified person, acceptable to Queensland Rail (acting reasonably), to prepare an environmental investigation and risk management assessment for the purposes of the Interface Risk Assessment and development of an IRMP;
 - (v) Queensland Rail will provide a methodology for calculating the Access Charges (including any applicable rates or other inputs for formulae);
 - (vi) Queensland Rail will provide a Capacity Analysis to the Access Seeker;
 - (vii) Queensland Rail will provide a detailed description of the relevant Train Service Entitlement and the initial timetable;
 - (viii) the Access Seeker must demonstrate that the Rolling Stock and Train Configurations for which the Access Rights are applicable are consistent with the Interface Standards incorporated in the IRMP; and
 - (ix) Queensland Rail will provide the other terms comprising the Access Agreement.
- (b) During the Negotiation Period, Queensland Rail will, if relevant, also negotiate the terms of a separate arrangement with the Access Seeker for the connection of Private Infrastructure to the Network.

2.6.3 Negotiation Cessation Notice

- (a) Queensland Rail may, at any time, give a notice to an Access Seeker that it does not intend to enter into an Access Agreement with the Access Seeker (**Negotiation Cessation Notice**) for any one or more of the following reasons:
 - (i) the Access Seeker fails to comply with all of the relevant provisions of this Undertaking, and Queensland Rail (acting reasonably) is of the opinion that such non-compliance is material;

⁴ Queensland Rail will publish on its website information, standards and requirements that the Interface Risk Assessment and IRMP must be consistent with. For example, Queensland Rail will make available a sample IRMP which specifies a list of safety and Rolling Stock issues that should, at a minimum, be addressed by the parties during the Interface Risk Assessment, along with suggested controls for the identified safety and Rolling Stock issues. However, the IRMP developed by the parties may cover additional safety and/or Rolling Stock issues and associated controls depending on the circumstances of the particular operation.

- (ii) Queensland Rail (acting reasonably) is of the opinion that:
 - (A) there is no reasonable likelihood of material compliance by the Access Seeker with the terms and conditions of an Access Agreement;
 - (B) the Access Seeker has no genuine intention of obtaining, or has no reasonable likelihood of using, the Access Rights requested; or
 - ~~(C) the Access Seeker is not reputable or of good financial standing; or~~
 - ~~(D)~~(C) the Access Application is frivolous in nature;
 - (iii) Queensland Rail (acting reasonably) is not satisfied, at any time, that the Access Seeker meets the prudential requirements set out in **clause 2.9.1**; or
 - (iv) the Access Seeker fails to comply with the dispute resolution process under **clause 6.1** (including any outcome of that dispute resolution process).
- (b) In forming an opinion referred to in **clause 2.6.3(a)(ii)(B)**, Queensland Rail may, without limitation, consider any one or more of the following factors:
- (i) whether the Access Seeker has secured, or is reasonably likely to secure:
 - (A) the rights required to enter and leave the Network (for example, rights to unload at its destination); and
 - (B) if applicable, a rail haulage agreement for the operation of Train Services referred to in its Access Application; and
 - (ii) the speed and timeliness of the Access Seeker in conducting its negotiations.
- (c) If Queensland Rail gives a Negotiation Cessation Notice to an Access Seeker, then the Access Seeker must, on request by Queensland Rail (in its absolute discretion), pay and, if paid by Queensland Rail, reimburse, Queensland Rail its reasonable costs incurred in negotiations with the Access Seeker.

2.6.4 Frivolous requests for Access

Without limitation to **clause 2.6.3**, if, prior to the start of the Negotiation Period, Queensland Rail (acting reasonably) considers the relevant Access Application is frivolous in nature, Queensland Rail may reject that Access Application and, if it does so, is not obliged to comply with this Undertaking in relation to that Access Application.

2.6.5 Rail safety and other considerations for passengers

~~If Queensland Rail considers that the use of any proposed Access Rights sought by an Access Seeker may:~~

- ~~(a) — adversely affect the safety of;~~
- ~~(b) — reasonably be expected to cause any undesirable nuisance or annoyance to; or~~
- ~~(c) — otherwise adversely affect,~~

~~any persons using or intending to use a passenger Train Service, then Queensland Rail may refuse to enter into an Access Agreement with the relevant Access Seeker.⁵ If:~~

- ~~(a) Queensland Rail considers:
 - ~~(i) (not acting arbitrarily) that the use of any proposed Access Rights sought by an Access Seeker may adversely affect the safety of any persons using or intending to use a passenger Train Service; or~~
 - ~~(ii) (acting reasonably) that the use of any proposed Access Rights sought by an Access Seeker may adversely affect the operation of passenger trains in the Metropolitan Region;~~~~
 - ~~(b) Queensland Rail and the Access Seeker (both acting in good faith) have discussed Queensland Rail's concerns in relation to the matters in paragraphs (a)(i) or (ii) (as applicable) and after those discussions paragraph (a) continues to apply;~~
 - ~~(c) Queensland Rail (acting reasonably) does not consider that any measures can reasonably and practicably be implemented by Queensland Rail or the Access Seeker to avoid, or mitigate to Queensland Rail's reasonable satisfaction, those adverse affects; and~~
 - ~~(d) refusal to enter into an Access Agreement would be consistent with Queensland Rail acting in accordance with Prudent Practices,~~
- ~~then Queensland Rail may refuse to enter into an Access Agreement with the relevant Access Seeker.⁶~~

~~⁵ For example, Queensland Rail may refuse to enter into an Access Agreement for non-passenger Train Services that are proposed to stop or operate immediately adjacent to stations or platforms at a time when the station or platform is or may be in use by passenger Train Services or passengers for Train Services.~~

~~⁶ For example, Queensland Rail may refuse to enter into an Access Agreement for non-passenger Train Services that are proposed to stop or operate immediately adjacent to stations or platforms at a time when the station or platform is or may be in use by passenger Train Services or passengers for Train Services.~~

2.7 Access Agreement

2.7.1 Access Rights granted under an Access Agreement

The granting of Access Rights occurs when Queensland Rail and the Access Seeker execute an Access Agreement and that Access Agreement is or becomes unconditional.

2.7.2 Access Seekers competing for Access Rights

(a) If:

- (i) two or more Access Seekers are seeking Access Rights; and
- (ii) the grant of Access Rights to one or more of those Access Seekers would result in Access Rights not being able to be granted to the other Access Seekers,

then Queensland Rail will:

- (iii) notify each of those Access Seekers as soon as practicable after it becomes aware of that circumstance; and

(iv) subject to **clauses 2.7.3(b)**~~2.7.3(b)~~~~2.7.2(b)~~ and ~~(c)(e)~~ and **clause 2.7.4**~~2.7.4~~, prioritise Access Seekers for the grant of Access Rights based on how favourable an Access Agreement with each Access Seeker is likely to be to Queensland Rail (as assessed by Queensland Rail in its absolute discretion) – with the most favourable being given the highest priority for the grant of Access Rights.

~~(iv)(b)~~ For the purpose of **clause 2.7.2(a)(iv)**, Queensland Rail's assessment of how favourable an Access Agreement is likely to be will be ~~enter into an Access Agreement with the Access Seeker who is ready and willing to execute an Access Agreement with Queensland Rail which, in the opinion of Queensland Rail (in its absolute discretion), is the most favourable to Queensland Rail~~ based on:

- ~~(A)(i)~~ (i) the Access Charges that are expected to arise from the Access Agreement;
- ~~(B)(ii)~~ (ii) the cost and risk to Queensland Rail of providing Access Rights in accordance with the Access Agreement;
- ~~(v)(iii)~~ (iii) the ability of the Access Seeker to satisfy and to continue to satisfy the prudential requirements set out in **clause 2.9.1**;
- ~~(A)(iv)~~ (iv) the term of the Access Agreement; and
- ~~(B)(v)~~ (v) any other effects that entering into the Access Agreement may have on Queensland Rail's financial and risk position.

(c) If:

- (i) **clauses 2.7.2(a)(i) and (ii) are satisfied;**

(ii) Queensland Rail and each of the relevant Access Seekers is ready and willing to execute an Access Agreement; and

(iii) in Queensland Rail's opinion (acting reasonably):

(A) it is not possible to determine which of the proposed Access Agreements is the most favourable to Queensland Rail based on the criteria set out in **clause 2.7.2(a)(iv)**; or

(B) each of the proposed Access Agreements is equally favourable to Queensland Rail based on the criteria set out in **clause 2.7.2(a)(iv)**.

then Queensland Rail will, subject to **clauses 2.7.3(b) and (c) and clause 2.7.4**, enter into an Access Agreement with the Access Seeker whose Access Application was received by Queensland Rail first.

(d) If Queensland Rail believes (acting reasonably) in the circumstances and at the time that compliance with **clause 2.7.2(c)** was required, that it was acting in compliance with **clause 2.7.2(c)** in entering into an Access Agreement, then Queensland Rail is not in breach of this Undertaking, and is not liable to any person (including any Access Seeker), in relation to or as a result of that entry into an Access Agreement, even if it is subsequently alleged that Queensland Rail did not comply with **clause 2.7.2(c)**.

(e) If Queensland Rail rejects an Access Application under this **clause 2.7.2**, then Queensland Rail will provide feedback to the Access Seeker who lodged the Access Application in the form set out in **schedule D** so as to indicate where any of the matters referred to in **schedule D** applied in relation to that rejection.

2.7.3 Renewals

(a) In this **clause 2.7.3**, a **Renewal Access Seeker** means, concerning an Access Agreement with an Access Holder:

(i) the Access Holder, where the Access Holder has no Customer;⁷ or

(ii) the person⁸ whom the Customer nominates in writing to Queensland Rail (**Customer Nominee**), where the Access Holder has a Customer.

(b) Where~~if~~ an Access Seeker (who is not a Renewal Access Seeker) submits an Access Application for Access Rights ~~concerning that can only be granted using Capacity that will become~~ the Available

⁷ For example, where the mine operator who uses the Access Rights to transport coal from its mine is the Access Holder.

⁸ The Customer may nominate itself, the existing Access Holder or any other person. This opportunity to nominate the person who can lodge a Renewal will give the Customer added flexibility concerning, for example, directly holding Access Rights or changing Operators at the end of an Access Agreement's term.

Capacity that will arise when an existing Access Agreement expires, ~~then~~ Queensland Rail will use reasonable endeavours to notify:

- (i) the Access Holder for that Access Agreement;
- (ii) that Access Holder's Customer (if any); and
- (iii) the relevant Customer Nominee (if any).

~~(b) of Queensland Rail's receipt of that Access Application, as soon as reasonably practicable after receiving it of that Access Application (unless that Access Seeker is the Access Holder for that Access Agreement).~~

(c) Subject to ~~clause 2.7.3(d)~~, if Despite any other provision in this Undertaking to the contrary and subject to clause 2.7.3(d), Queensland Rail may not execute an Access Agreement with the Access Seeker referred to in clause 2.7.3(b) until:

~~(e) —~~

- ~~(i) — the relevant Access Agreement of an Access Holder notified under **clause 2.7.2(b)** is in respect of Train Services for which there is an applicable Reference Tariff;~~
- ~~(ii) — that Access Holder has submitted or, within 20 Business Days after being given a notice under **clause 2.7.2(b)**, submits, an Access Application seeking new Access Rights equivalent to all or part of its Access Rights under the relevant Access Agreement and which commence on that Access Agreement's expiry; and~~
 - ~~(iii) the new Access Rights sought by the Access Holder are for a term that is at least the period for which the Access Seeker referred to in **clause 2.7.2(b)** is seeking Access Rights but no more than 10 years (unless otherwise agreed by Queensland Rail);~~

~~then Queensland Rail, despite any other provision in this Undertaking, will not execute an Access Agreement with the Access Seeker referred to in **clause 2.7.2(b)** until the earlier of:~~

- ~~(iv)(i) the cessation of negotiations with the Renewal Access Seeker have ended relevant Access Holder in accordance with this Undertaking; and or~~
- ~~(ii) nine months after the date on which Queensland Rail gave giving the relevant notice ~~to the relevant Access Holder~~ under **clause 2.7.3(b)** ~~2.7.2(b)~~.~~
- ~~(v) whichever happens first.~~

(d) **Clause 2.7.3(c)** only applies where ~~does not apply~~;

- (i) Queensland Rail has given a notice under **clause 2.7.3(b)**;

- (ii) the relevant existing Access Agreement concerns Train Services for which there is an applicable Reference Tariff;
- (iii) the relevant Renewal Access Seeker's Access Application (**Renewal Application**):
 - (A) was submitted to Queensland Rail:
 - (1) no later than 20 Business Days after Queensland Rail gave the notice under **clause 2.7.3(b)**; and
 - (2) no less than two years before the expiry of the relevant Access Agreement;
 - (B) is for new Access Rights equivalent to all or part of the Access Rights under the existing Access Agreement (including for the same origin and destination) and which commence on that Access Agreement's expiry; and
 - (C) is for a term of:
 - (1) at least the period for which the Access Seeker referred to in **clause 2.7.3(b)** is seeking Access Rights; or
 - (2) the remaining life of the relevant coal mine as notified in writing to Queensland Rail by the Renewal Access Seeker (where it has no Customer) or otherwise the relevant Customer; and
- ~~(iv)~~ if the relevant Access Holder submits or has submitted its Access Application to Queensland Rail less than one year before the expiry of that Access Holder's Access Agreement ~~**clause 2.7.3(d)(iii)(C)(2)**~~ ~~**2.7.3(e)(iii)(B)**~~ has not previously applied for any past Renewal Application in connection with the relevant Access Rights, unless Queensland Rail agrees otherwise.⁹
- ~~(d)~~(e) Nothing in this **clause 2.7.3** obliges Queensland Rail to enter into an Access Agreement with a Renewal Access Seeker or to do so on the same terms as the relevant existing Access Agreement for the relevant existing Access Rights.

⁹ Unless Queensland Rail agrees otherwise, **clause 2.7.3(c)** is only intended to operate once where a Renewal Application is for the remaining life of a coal mine. Any subsequent Renewal Application concerning the relevant Access Rights does not have the benefit of **clause 2.7.3(c)**. In those instances, the Access Seeker for that Renewal Application will be treated on the same basis as any other Access Seeker.

~~2.7.3~~ **2.7.4 Contracting Available Capacity or Additional Capacity**

Queensland Rail is not obliged to enter into an Access Agreement if:

- (a) the Network does not, in Queensland Rail's opinion, have sufficient Available Capacity to meet the Access Seeker's request for Access Rights; and
- (b) Queensland Rail has not agreed to provide Additional Capacity to meet the Access Seeker's request for Access Rights.

~~2.7.4~~ **2.7.5 Development of Access Agreements**

Unless otherwise agreed between Queensland Rail and the Access Seeker, an Access Agreement must be consistent with:

- (a) this Undertaking;
- (b) the terms of a Standard Access Agreement applicable to the relevant type of Train Service; or
- (c) if there is no applicable Standard Access Agreement, the principles in **schedule CC** (provided that those principles do not limit the matters which may be included in an Access Agreement).

~~2.7.5~~ **2.7.6 Execution of Access Agreements**

- (a) If:
 - (i) Queensland Rail offers an Access Agreement; and
 - (ii) Queensland Rail and the Access Seeker are ready and willing to execute the Access Agreement,then:
 - (iii) both Queensland Rail and the Access Seeker must use reasonable endeavours to execute the Access Agreement as soon as practicable provided that Queensland Rail is not required to execute the Access Agreement before the Access Seeker; and
 - (iv) if the Access Seeker does not execute that Access Agreement within 20 Business Days after receiving Queensland Rail's offer (or such longer period as agreed by Queensland Rail), Queensland Rail may (in its absolute discretion):
 - (A) withdraw its offer by notice in writing to the Access Seeker; and
 - (B) cease negotiations with that Access Seeker.
- (b) Despite any other provision in this Undertaking, Queensland Rail may, but is not obliged to, grant Access Rights by agreeing to amend an existing Access Agreement.

~~2.7.6~~ 2.7.7 Transfer of Access Rights

An Access Holder may only assign, novate or otherwise transfer the Access Holder's interest in an Access Agreement to a third party in accordance with the terms of that Access Agreement and with the prior written consent of Queensland Rail.

2.8 New Standard Access Agreements

- (a) The QCA may give Queensland Rail a notice requiring it to submit a proposed standard access agreement that is:
- (i) for a specified type of Train Service not covered by a Standard Access Agreement; and
 - (ii) consistent with this Undertaking and the principles contained in **schedule CC**,
- (Proposed Standard Access Agreement)**, if the QCA has a reasonable expectation that this is warranted on the basis of there being sufficient interest from Access Seekers and after taking into account each of the matters set out in section 138(2)(a) to (h) of the QCA Act.
- (b) For the purpose of this **clause 2.8**:
- (i) a notice given by the QCA under **clause 2.8(a)** will be treated as if it were an initial undertaking notice given by the QCA under the QCA Act;
 - (ii) a Proposed Standard Access Agreement submitted by Queensland Rail to the QCA in accordance with this **clause 2.8** will be treated as though it was a draft access undertaking submitted under the QCA Act in response to an initial undertaking notice; and
 - (iii) Queensland Rail and the QCA will act in accordance with the provisions of the QCA Act as though this were the case.
- (c) For clarity, after a Proposed Standard Access Agreement is approved by the QCA in accordance with this **clause 2.8** this Undertaking will apply as though it were amended to include the Proposed Standard Access Agreement as a Standard Access Agreement.

2.9 Prudential requirements

2.9.1 Access Seekers must satisfy prudential requirements

An Access Seeker must at all times satisfy the following prudential requirements namely:

- (a) the Access Seeker must not be Insolvent;

- (b) the Access Seeker (and any Related Party of the Access Seeker) must not be, or have been at any time in the previous two years, in Material Default of:
 - (i) this Undertaking (or the 2008 Undertaking);
 - (ii) any agreement with Queensland Rail; or
 - (iii) any agreement under which access to Private Infrastructure has been provided to the Access Seeker or a Related Party of the Access Seeker; and
- (c) must be able to demonstrate to Queensland Rail that it has the financial capacity to perform its obligations, and satisfy its liabilities, under an Access Agreement (including timely payment of Access Charges or other amounts and of insurance premiums and deductibles under any required policies of insurance).

2.9.2 Requirement to demonstrate satisfaction of prudential requirements

Queensland Rail may, at any time, require an Access Seeker to demonstrate, within a reasonable period of no more than ~~ten~~ ~~10~~ Business Days, that the Access Seeker satisfies the prudential requirements set out in **clause 2.9.1**.

2.9.3 Consequence of failing to satisfy prudential requirements

Despite any other provision of this Undertaking, if the Access Seeker cannot satisfy the prudential requirements referred to in **clause 2.9.1** to Queensland Rail's satisfaction (acting reasonably), then Queensland Rail may refuse to commence negotiations, or may cease negotiations, with that Access Seeker.

Part 3 Pricing principles

3.1 Pricing objectives

3.1.1 Revenue adequacy

Queensland Rail is entitled to earn revenue from providing Access, including from Access Charges and Transport Service Payments, that is at least enough to:

- (a) fully recover all Efficient Costs; and
- (b) provide a return on the value of assets and investment commensurate with the regulatory and commercial risks involved.

If Queensland Rail earns revenue in excess of this, then Queensland Rail may seek to reduce Transport Service Payments rather than Access Charges.

3.1.2 Network utilisation

- (a) Queensland Rail may establish different Access Charges for Train Services serving different markets to maximise the commercially viable use of Capacity while meeting, in aggregate, the Common Costs.
- (b) If the Available Capacity is potentially insufficient to satisfy the requests for Access Rights of all current and likely Access Seekers, then:
 - (i) Queensland Rail may (consistent with the principles set out in **clauses 3.1 to 3.3**) determine the highest Access Charge for a Train Service that it is likely to achieve from the current or likely Access Seekers (**Maximum Access Charge**);
 - (ii) the Maximum Access Charge may be quoted to all Access Seekers in respect of the Available Capacity (including any Additional Capacity that Queensland Rail has agreed to provide), irrespective of:
 - (A) any Access Seeker's ability to contribute to the Common Costs; or
 - (B) the Access Charges payable under existing Access Agreements for similar Train Services; and
 - (iii) if Queensland Rail:
 - (A) chooses to allocate Available Capacity to an Access Seeker for an Access Charge less than the Maximum Access Charge; and

- (B) another Access Seeker is willing to pay an Access Charge equal to the Maximum Access Charge,

then when determining a Ceiling Revenue Limit in accordance with **clause 3.2.3** for Train Services using that constrained section of the Network, the Access Charge for the Access Seeker is assumed to be the Maximum Access Charge.

3.2 Pricing limits

3.2.1 Applying a Ceiling Revenue Limit

Queensland Rail in setting the methodology, rates and other inputs for calculating Access Charges for an Access Seeker's proposed Train Services must do so such that, over the Evaluation Period, the Expected Access Revenue from any one of those Train Services and any combination of those Train Services does not exceed the Ceiling Revenue Limit for that Train Service or combination of Train Services, as applicable.

3.2.2 Applying a Floor Revenue Limit

- (a) Subject to **clause 3.2.2(b)**, Queensland Rail may (in its absolute discretion) set the methodology, rates and other inputs for calculating Access Charges for an Access Seeker's proposed Train Services such that, over the Evaluation Period, the Expected Access Revenue from any one of those Train Services or any combination of those Train Services falls below the Floor Revenue Limit for that Train Service or combination of Train Services, as applicable.
- (b) For the purposes of **clause 3.2.2(a)**, Queensland Rail must only exercise the discretion under **clause 3.2.2(a)** where:
 - (i) Queensland Rail receives Transport Service Payments for any part of the Network that will be used by the Access Seeker's proposed Train Services;
 - (ii) after taking into account the relevant Transport Services Payments the Expected Access Revenue would not fall below the Floor Revenue Limit; and
 - (iii) the methodology, rates and other inputs for calculating the relevant Access Charges includes a mechanism that allows Queensland Rail to vary the Access Charges from time to time in response to any decrease in the relevant Transport Service Payments.

3.2.3 Determination of Ceiling Revenue Limit

- (a) The Ceiling Revenue Limit means the aggregate of the following:
 - (i) the maximum amount of Expected Access Revenue; and

- (ii) where the Access Seeker’s proposed Train Services comprise all of the Train Services using the relevant part of the Network, the Transport Services Payments (if any) that are reasonably expected to be received by Queensland Rail in respect of that part of the Network (on a pro rata basis for that individual Train Service or combination of Train Services, as applicable),

over the Evaluation Period where the Ceiling Revenue Limit is measured such that the net present value of the cashflows associated with providing Access for the relevant Train Service(s) over the Evaluation Period is zero. This measurement can be expressed as:

$$0 = -AV_o + \sum_{t=1}^n \frac{(CRL_t - C_t - M_t - T_t)}{(1 + WACC)^t} + \frac{AV_n}{(1 + WACC)^n}$$

where:

- AV_o** is the value of assets reasonably expected to be required for the Stand Alone provision of Access for the Train Service(s), assessed in accordance with **clause 3.2.3(c)**, at the commencement of the Evaluation Period;
- n** is the number of years in the Evaluation Period;
- t** is each year within the Evaluation Period from one to n;
- CRL_t** is the Ceiling Revenue Limit for the Train Service(s) expressed as revenue that may be earned in each year of the Evaluation Period;
- C_t** is the capital expenditure for assets reasonably expected to be required for the Stand Alone provision of Access for the Train Service(s) in each year of the Evaluation Period;
- M_t** is the Efficient Costs for the Stand Alone provision of Access for the Train Service(s) in each year of the Evaluation Period;
- T** is the tax expense assessed through the application of the statutory tax rate for corporations to the taxable income reasonably expected to be earned through the Stand Alone provision of Access for the Train Service(s) in each year of the Evaluation Period, where such tax expense is reduced in each year by the application of the gamma factor, reflecting the market value of dividend imputation, as agreed by Queensland Rail and the QCA or, failing such agreement, as determined by the QCA; and
- AV_n** is the value of assets reasonably expected to be required for the Stand Alone provision of Access for the Train Service(s),

assessed in accordance with **clause 3.2.3(c)**, at the end of the Evaluation Period.

WACC has the meaning given to that term in **clause 7.1**.

- (b) For the purposes of determining the variables under **clause 3.2.3(a)**, the assumed traffic task resulting from the Train Services(s) over the Evaluation Period is the forecast, as reasonably determined by Queensland Rail, for the traffic task resulting from the Train Service(s) over the Evaluation Period (including making allowance for any changes in traffic task that are expected to result from the commencement of projects that impact significantly on the traffic task).
- (c) The value of assets used in **clause 3.2.3(a)** is determined using the Depreciated Optimised Replacement Cost methodology.

3.3 Limits on price differentiation

- (a) Queensland Rail may differentiate the methodology, rates and other inputs for calculating Access Charges between Access Seekers or between Access Seekers and Access Holders in accordance with this **clause 3.3**.
- (b) The methodology, rates and other inputs for calculating Access Charges formulated by Queensland Rail for an Access Seeker may vary from:
 - (i) an applicable Reference Tariff to reflect differences in the cost and risk to Queensland Rail of providing Access to that Access Seeker compared to the basis on which the Reference Tariff was determined; or
 - (ii) if there is no applicable Reference Tariff, the methodology, rates and other inputs for calculating Access Charges for other Access Seekers or Access Holders in respect of a Train Service with similar characteristics to that Access Seeker's proposed Train Service¹⁰:
 - (A) on a unit rate basis to reflect differences in the cost and risk to Queensland Rail of providing Access to that Access Seeker compared to the other Access Seekers or Access Holders; and

¹⁰ Queensland Rail will determine whether the characteristics of Train Services are similar having regard to all relevant matters including the geographical area within which the Train Services operate, the origin and destination of the Train Services, the duration and quality of the Train Path including arrival and departure times of the day and week, the nature of the Rolling Stock and Train Configuration, characteristics of the Train Services, the commodity transported or transport service and the duration and terms of the relevant Access Agreement.

(B) to reflect:

- (1) changes that result in Queensland Rail no longer being able to commercially provide Access to Train Services in that geographic area at the current Access Charges (for example, changes in relevant Transport Service Payments);
- (2) changes in the cost and risk to Queensland Rail of providing Access;
- (3) changes in circumstances that have had, or may have, a material effect on the ability or willingness of Access Holders or Access Seekers to pay Access Charges or proposed Access Charges; or
- (4) limitations on Available Capacity, over time.

3.4 Reference Tariffs

3.4.1 Application of Reference Tariffs

- (a) A Reference Tariff is an acceptable means by which Queensland Rail provides Access Seekers with information about the matters listed in sections 101(2)(a) to (c) of the QCA Act.
- (b) If Queensland Rail formulates an Access Charge for an Access Seeker's proposed Train Services based on a Reference Tariff, then Queensland Rail is taken to have complied with **clauses 3.1** and **3.2**.

3.4.2 Review of Reference Tariffs

- (a) Subject to **clause 3.4.2(b)**, **schedule AA** specifies the period for which a Reference Tariff is effective and how the Reference Tariff may be reviewed during this period.
- (b) Without limitation to **clause 3.4.2(a)**:
 - (i) Queensland Rail will, prior to 30 June 2013 (or such later date as approved by the QCA), review the Reference Tariffs and submit to the QCA proposed new Reference Tariffs that are to take effect from 1 July 2013 (including, if Queensland Rail wishes to do so, a determination or review, as applicable, of the asset value for the West Moreton System for the purpose of developing the Reference Tariffs);
 - (ii) if Queensland Rail does not submit proposed new Reference Tariffs in accordance with **clause 3.4.2(b)(i)**, then Queensland Rail will be taken to have submitted the

Reference Tariffs under this Undertaking as the proposed new Reference Tariffs; and

- (iii) for the purpose of this **clause 3.4.2(b)**:
- (A) Queensland Rail's submission of proposed new Reference Tariffs under this **clause 3.4.2(b)** will be treated as if it were a draft access undertaking submitted by Queensland Rail under the QCA Act in response to an initial undertaking notice given by the QCA;
 - (B) Queensland Rail and the QCA will act in accordance with the provisions of the QCA Act as though this were the case; and
 - (C) for clarity, after new Reference Tariffs are approved by the QCA in accordance with this **clause 3.4.2(b)** this Undertaking will apply as though it were amended to replace the Reference Tariffs with those new Reference Tariffs with effect on and from 1 July 2013.

3.5 Rate review provisions

Queensland Rail or an Access Seeker may require rate review provisions in an Access Agreement that is being negotiated to enable the methodology, rates and other inputs for calculating Access Charges to be adjusted to be consistent with changes over time in:

- (a) the cost and risk to Queensland Rail of providing Access;
- (b) (if a Reference Tariff applies to the Train Service type) the applicable Reference Tariff (including any matters under **schedule A**); and
- (c) (if no Reference Tariff applies to the Train Service type) the methodology, rates and other inputs for calculating Access Charges offered to other Access Seekers in respect of a Train Service with similar characteristics to that Access Seeker's proposed Train Service.¹¹

3.6 QCA Levy

An Access Charge for a Train Service may include a QCA Levy component to be collected for the QCA by Queensland Rail. This component will, where applicable, be determined from year to year based on the QCA Levy levied by

¹¹ Queensland Rail will determine whether the characteristics of Train Services are similar having regard to all relevant matters including the geographical area within which the Train Services operate, the origin and destination of the Train Services, the duration and quality of the Train Path including arrival and departure times of the day and week, the nature of the Rolling Stock and Train Configuration, characteristics of the Train Services, the commodity transported or transport service and the duration and terms of the relevant Access Agreement.

the QCA to Queensland Rail and allocated amongst Train Service types in a manner approved by the QCA.

Part 4 Network Management Principles and Operating Requirements Manual

~~Part 4~~ 4.1 Network Management Principles

- (a) Queensland Rail will:
 - (i) perform scheduling, Train Control and associated services; and
 - (ii) provide Capacity related information to Access Holders, in accordance with the Network Management Principles¹² and subject to the terms of each Access Holder's Access Agreement.
- (b) Each Train Service Entitlement will:
 - (i) include specified scheduling constraints (which will vary between different types of Train Services); and
 - (ii) be expressed in terms so that it can be used in the development of any MTP and DTP.
- (c) Queensland Rail will, subject to the Network Management Principles, manage the scheduling of train plans, including the MTP and DTP, to optimise the use of the Network from time to time.

4.2 Operating Requirements Manual

4.2.1 Obligation to comply with Operating Requirements Manual

- (a) An Access Agreement executed during the Term may include provisions requiring Queensland Rail and the relevant Access Holder to comply with the Operating Requirements Manual, in performing obligations or exercising rights under that Access Agreement.
- (b) Queensland Rail must make the Operating Requirements Manual available to Access Seekers and Access Holders.

~~(e)~~ 4.2.2 Amending the Operating Requirements Manual

- (a) Queensland Rail may amend the Operating Requirements Manual from time to time.
- (b) Clauses 4.2.2(c) to 4.2.2(e) do not apply to amendments made to the Operating Requirements Manual by Queensland Rail:
 - (i) (not acting arbitrarily) on safety grounds;
 - (ii) in response to a Material Change; or

¹² For clarity, the Network Management Principles are set out in **schedule BB**.

- (iii) if required for the purposes of Queensland Rail implementing a change to the assets, equipment, facilities, infrastructure, processes, procedures or systems used for the purposes of any train management system (including, for example, a Train Control system or a train protection system) where Queensland Rail (acting reasonably) implements the change for the purpose of improving safety, network capabilities, network capacity or system reliability (or a combination of any of these).
- (c) If in Queensland Rail's opinion (acting reasonably) the proposed amendment to the Operating Requirements Manual will materially adversely affect an Access Holder then Queensland Rail will only amend the Operating Requirements Manual after:
 - (i) notifying the Access Holder of the proposed amendment; and
 - (ii) providing the Access Holder with a reasonable opportunity to discuss the proposed amendment with Queensland Rail.
- (d) A notice issued by Queensland Rail under **clause 4.2.2(c)** must include details of:
 - (i) the proposed amendment including the proposed implementation date;
 - (ii) the period during which the Access Holder may discuss the proposed amendment with Queensland Rail; and
 - (iii) the date by which the Access Holder may lodge with Queensland Rail any submission in respect of the proposed amendment.
- (e) Without limiting the matters that Queensland Rail must consider when deciding whether to proceed with any proposed amendment, Queensland Rail must consider any submissions from an Access Holder.
- (f) If Queensland Rail amends the Operating Requirements Manual, Queensland Rail must:
 - (i) notify all Access Holders and Access Seekers of the amendment and specify the date on which the amendment will take effect; and
 - (ii) in specifying the date on which the amendment will take effect, allow a reasonable period as determined by Queensland Rail, being not less than ten Business Days, for each Access Holder who is reasonably likely to be affected by the amendment to amend its processes, procedures and plans to comply with the amended Operating Requirements

Manual, except where Queensland Rail requires immediate compliance for safety reasons.

- ~~(e)~~(g) If Queensland Rail amends the Operating Requirements Manual in accordance with this **clause 4.2**, the Operator must bear its own costs of implementing the proposed amendments including the equipping of Rolling Stock with new or additional equipment or making any other modification to Rolling Stock.

4.2.3 Disputes about amendments to Operating Requirements Manual

- (a) This **clause 4.2.3** does not apply to amendments made to the Operating Requirements Manual by Queensland Rail:
- (i) on safety grounds;
 - (ii) if required pursuant to a Material Change; or
 - (iii) if required for the purposes of Queensland Rail implementing a change to the assets, equipment, facilities, infrastructure, processes, procedures or systems used for the purposes of any train management system (including, for example, a Train Control system or a train protection system) where Queensland Rail (acting reasonably) implements the change for the purpose of improving safety, network capabilities, network capacity or system reliability (or a combination of any of these).
- (b) Subject to **clause 4.2.3(a)**, if:
- (i) Queensland Rail amends the Operating Requirements Manual; and
 - (ii) an Access Holder considers that an amendment to the Operating Requirements Manual Unfairly Differentiates,
then the Access Holder may, within 20 Business Days after being given notice of the amendment by Queensland Rail under **clause 4.2.2(f)(i)**:
 - (iii) give Queensland Rail a notice setting out details of the dispute including grounds demonstrating that the amendment Unfairly Differentiates; and
 - (iv) subject to this **clause 4.2**, refer the matter to the QCA to be resolved as if it was a dispute that was required to be determined under **clause 6.1.4** and as though the Access Holder was an Access Seeker.
- (c) Subject to the final determination of a dispute referred to the QCA under **clause 4.2.3(b)**, an amendment to the Operating Requirements Manual takes effect from the date specified under **clause 4.2.2(f)** and the exercise by an Access Holder of a right under **clause 4.2.3(b)** does not affect the implementation of the amendment and the

Operating Requirements Manual is deemed to have been amended on an interim basis pending the final determination of the dispute.

- (d) If and to the extent that it is finally determined in respect of a dispute referred to the QCA under **clause 4.2.3(b)** that the amendment Unfairly Differentiates, then Queensland Rail may, at its election, either:
- (i) specify a date on which the amendment will lapse and implement reasonable transitional arrangements; or
 - (ii) where the determination indicates how the amendment may be varied so that it does not Unfairly Differentiate, vary the amendment consistent with that determination.
- (e) Nothing in this **clause 4.2.3** restricts or otherwise limits the rights of an Access Holder or Queensland Rail to refer a dispute about whether any amendment to the Operating Requirements Manual Unfairly Differentiates to a court provided that:
- (i) the dispute was first referred to, and determined by, the QCA; and
 - (ii) proceedings are commenced within 20 Business Days after the QCA's determination of that dispute.
- (f) For clarity:
- (i) for a dispute in relation to whether any amendment to the Operating Requirements Manual Unfairly Differentiates, the Access Holder bears the onus of proving that it does Unfairly Differentiate; and
 - (ii) if court proceedings in respect of the dispute are not commenced within the time period referred to in **clause 4.2.3(e)(ii)**, then the QCA's determination is final and binding on Queensland Rail and Access Holders.

4.2.4 Liability

- (a) If Queensland Rail believes (acting reasonably and in good faith) in the circumstances and at the time that compliance with this **clause 4.2** was required, that it was acting in compliance with this **clause 4.2** in amending the Operating Requirements Manual, then Queensland Rail is not in breach of this Undertaking, and is not liable to any person (including any Access Seeker or Access Holder), in relation to or as a result of amending the Operating Requirements Manual (including on an interim basis) or the due implementation and observance of an amendment to the Operating Requirements Manual (whether on an interim or final basis), even if it is subsequently alleged that Queensland Rail did not comply with this **clause 4.2** or that the amendment Unfairly Differentiates.

(b) An Access Agreement may provide that Queensland Rail has no liability (on any basis whatsoever including in negligence) to the Access Holder in relation to or as a result of amending the Operating Requirements Manual (including on an interim basis) or the due implementation and observance of an amendment to the Operating Requirements Manual (whether on an interim or final basis) where Queensland Rail believes (acting reasonably and in good faith) in the circumstances and at the time that compliance with this **clause 4.2** was required, that it was acting in compliance with this **clause 4.2** in amending the Operating Requirements Manual.

Nominated Unloading Facility locations	Unloading Time (hours)
Fisherman Islands coal loader	1.9
Swanbank	4

3 Reference Tariffs

3.1 Calculation of the Reference Tariffs

- (a) The applicable Reference Tariff for a Reference Train Service ~~shall~~ will be calculated as follows:

- (i) for a Reference Train Service that uses the Nominated Loading Facility at Ebenezer:

$$\left(AT_1 \times \frac{gtk}{1000} \right) + (QCALeVy \times nt)$$

- (ii) for a Reference Train Service that uses a Nominated Loading Facility at Jondaryan (New Acland) or Macalister (Wilkie Creek):

$$\left(AT_1 \times \frac{gtk}{1000} \right) + (AT_2 \times rtp) + (QCALeVy \times nt)$$

where:

AT₁ is the variable part of the Reference Tariff that is levied on a gross tonne kilometre basis specified as such under **clause 3.1(e)** for the relevant Reference Train Service;

AT₂ is the fixed part of the Reference Tariff that is levied on a reference Train Path basis specified as such under **clause 3.1(e)** for the relevant Reference Train Service,

provided that the above calculation is subject to the addition from time to time of any applicable Adjustment Charge (including, if necessary, on a pro rata basis with other Reference Train Services that have the same origin and destination and Access Holder and are run during the same billing period, as the relevant Reference Train Service) and any applicable Take or Pay Charge.

- (b) For the purposes of the calculation under **clause 3.1(a)**, the amounts of AT₁, AT₂, the QCA Levy, any Adjustment Charge and any Take or Pay Charge are GST exclusive. An Access Charge calculated based on a Reference Tariff will have an amount for GST added to it.
- (c) For the purposes of this **schedule AA**, a Train Service is a one way Train Service, that is, the journey from the Nominated Loading Facility to the Nominated Unloading Facility is one Train Service, and the return journey from the Nominated Unloading Facility to the Nominated Loading Facility is a second Train Service.
- (d) For the purposes of **clause 3.1(a)**, gtk will be assessed for the relevant Train Service over the billing period for the Access Charge which is based on the Reference Tariff being calculated.
- (e) The amount of the Reference Tariff inputs are as follows:

- (i) for a Reference Train Service to or from the Nominated Loading Facility at Ebenezer:

Reference Tariff Input	\$
AT ₁	17.94 <u>18.18</u>
QCA Levy	0.0126 <u>0.03359</u>

- (ii) for a Reference Train Service to or from a Nominating Loading Facility at Jondaryan (New Acland) or Macalister (Wilkie Creek):

Reference Tariff Input	\$
AT ₁	8.98 <u>9.09</u>
AT ₂	4,228.76 <u>4284.43</u>
QCA Levy	0.0126 <u>0.03359</u>

The values inserted in this document are the values of the reference tariff inputs under the 2008 Undertaking as at the time that this document was

*originally submitted to the QCA for approval. If the Approval Date occurs after the First Escalation Date, then the Reference Tariff inputs in this document will still be escalated as though this document had been approved by the QCA prior to the First Escalation Date and those inputs were escalated on the First Escalation Date in accordance with **clause 3.2**.*

3.2 Escalation of Reference Tariffs

- (a) Each Reference Tariff input specified in **clause 3.1(e)**, except the QCA Levy, will automatically escalate annually on each Escalation Date commencing on the First Escalation Date in accordance with the following formula:

$$AT_n = AT_{n-1} \times \left(\frac{CPI_n}{CPI_{n-1}} \right)$$

where:

- AT_n** means the value of the relevant Reference Tariff input to apply after escalation;
- AT_{n-1}** means the escalated value of the relevant Reference Tariff input immediately prior to the relevant Escalation Date or, for the First Escalation Date, means the relevant Reference Tariff input referred to in **clause 3.1(e)**;
- CPI_n** means the CPI for the Quarter which commenced six months prior to the Escalation Date for which the variable AT_n is being determined; and
- CPI_{n-1}** means the CPI for the Quarter which commenced 18 months prior to the Escalation Date for which the variable AT_n is being determined.
- (b) Queensland Rail will publish the escalated inputs of the Reference Tariff on its website within five Business Days after each Escalation Date commencing with the First Escalation Date.
- (c) Where an error has been made in the calculation of the escalated inputs of a Reference Tariff, Queensland Rail will correct the error so that the relevant inputs of the Reference Tariff are escalated in accordance with **clause 3.2(a)**.
- (d) For clarity, if:
- (i) the basis of assessment of the CPI is altered in a material way; or
 - (ii) the CPI ceases (or is likely to cease) to be:
 - (A) published; or
 - (B) published at sufficiently regular intervals for the purpose of the calculation in clause 2.1 of this schedule 3,

Queensland Rail may submit a draft amending access undertaking to the QCA in relation to the amendment or replacement of the CPI.

- (a) The revenue that Queensland Rail is entitled to earn in relation to Reference Train Services includes Take or Pay Charges in accordance with this **clause 4**.
- (b) Take or Pay Charges will be determined for:
 - (i) each Year during which the relevant Train Services are entitled to operate; or
 - (ii) the relevant part of a Year, if the relevant Train Services were only entitled to operate for part of the first or last Year during the term of the relevant Access Agreement because that entitlement commenced on a date other than 1 July or expired or terminated on a date other than 30 June,

(Take or Pay Period) and invoiced for each Take or Pay Period after the end of that Take or Pay Period.

- (c) The amount of the Take or Pay Charges for a Take or Pay Period will be the amount which is 80% of the amount calculated for that Take or Pay Period as follows:

$$\left(\left(AT_1 \times \frac{gtk}{1000} \right) + AT_2 \right) * NTNO$$

where:

- (i) AT_1 and AT_2 are the Reference Tariff inputs applicable on the last day of that Take or Pay Period;

- (c) If the QCA considers it appropriate, the QCA may publish details of Queensland Rail's submission of proposed Adjustment Charges and invite and consider comments from stakeholders regarding the proposed Adjustment Charges (provided that, to the extent that stakeholders provide comments, Queensland Rail must be given a reasonable period in which to provide a response to those comments to the QCA).

6.4 Decision to approve or refuse to approve variation

- (a) Where Queensland Rail submits proposed Adjustment Charges to the QCA in accordance with **clause 6.2**, the QCA must approve:
- (i) the Access Holders to which the Adjustment Charges will apply;
 - (ii) the Adjustment Charges that are to apply to each Access Holder; and
 - (iii) the billing period(s) in respect of which the Adjustment Charges will be applied,

if the proposed Adjustment Charges (excluding any interest component) are reasonable to recover or reimburse, as applicable, any under or over recovery of Access Charges that relate to each Access Holder and, where **clause 6.1(b)(iii)(B)** applies, the QCA is satisfied that Queensland Rail has acted reasonably in selecting an appropriate equivalent rate in accordance with that provision.

- (b) If the QCA refuses to approve the proposed Adjustment Charges, the QCA must give Queensland Rail a notice in writing:
 - (i) stating the reasons for its refusal and the way in which the QCA considers the proposed Adjustment Charges should be amended so as to constitute (excluding any interest component) a reasonable recovery or reimbursement, as applicable of any under or over recovery of Access Charges by Queensland Rail that relate to each Access Holder; and
 - (ii) requiring Queensland Rail to vary the proposed Adjustment Charges in the way the QCA considers it appropriate and resubmit the amended proposal to the QCA within 20 Business Days after Queensland Rail receives the notice.
- (c) Queensland Rail must comply with a notice given under **clause 6.4(b)**.
- (d) The QCA must approve a resubmitted proposal for Adjustment Charges, if the resubmitted proposal has been amended or developed in accordance with the QCA's notice given under **clause 6.4(b)**.
- (e) Queensland Rail must comply with an approval of the QCA given in accordance with **clause 6.4(a)** or **(d)** including in applying the Adjustment Charge approved for each Access Holder to the calculation of Access Charges payable by that Access Holder.

6.5 Review of Access Charges to provide for Adjustment Charges

The calculation of Access Charges under an Access Agreement must be reviewed and varied to provide for the payment of Adjustment Charges approved by the QCA in accordance with **clause 6.4(a)** or **(d)** by the relevant Access Holder including that:

- (a) the Access Charges payable by the Access Holder must include any applicable Adjustment Charge approved by the QCA from time to time in relation to or in connection with:
 - (i) any variation of a Reference Tariff approved by the QCA to apply or take effect on a date prior to the date on which the QCA approves the variation; or
 - (ii) any Reference Tariff that the Undertaking states is applicable or effective from a date prior to the date on which that Reference Tariff was approved by the QCA; and
- (b) an Adjustment Charge so determined by the QCA must be applied to the calculation of the amount of the invoice for charges payable by the

Access Holder under the Access Agreement for the relevant billing period.

7 Variations to Reference Train Service

- (a) A varied Access Charge ~~shall~~ will be applicable to a Train Service that:
- (i) varies from the Reference Train Service characteristics specified in clauses 2.1(c) to (e); or
 - (ii) operates under terms and conditions with agreed variations from the requirements of clauses 2.1(f) and (g),

but otherwise satisfies the nominated Reference Train Service description, so that the varied Access Charge varies from the applicable Reference Tariff due to differences in cost or risk to Queensland Rail of providing Access for that Train Service compared to the Reference Train Service.

- (b) Where a Train Service differs from the Reference Train Service due to it not complying with **clause 2.1(c)(vii)**, then Queensland Rail will, unless otherwise agreed with the QCA, quote an Access Charge that varies from the Reference Tariff by applying the following principles:

- (i) the number of reference Train Paths used by the proposed Train Service will be determined as follows:

$$\text{rtp} = \max[(A/B), (B/A)]$$

where:

A is the maximum number of Reference Train Services at full utilisation; and

B is the maximum number of the proposed Train Services at full utilisation;

provided that if:

(A) the maximum number of proposed Train Services at full utilisation exceeds the maximum number of Reference Train Services at full utilisation; and

(B) the scheduled section running times of the proposed Train Service are the same as the nominated section running times for the Reference Train Service,

then rtp is deemed to be one; and

- (ii) the maximum number of Train Paths available for a Reference Train Service and for the proposed Train Service will be determined using a readily available simulation package.

Schedule B

Network Management Principles

1 Train Planning Principles

1.1 Master Train Plan Principles

- (a) The MTP will indicate the Capacity necessary to satisfy all relevant Train Service Entitlements, all of Queensland Rail's passenger Train Services, and time allocated for Planned Possessions.
- (b) Access Holders' Train Service Entitlements and Queensland Rail's passenger Train Services will be allocated particular Train Paths.
- (c) The MTP will be in a form that sets out the time/distance (location) relationship of the Train Services and other activities on the Network and is readily convertible to a DTP.
- (d) Queensland Rail will notify all parties whose activities are affected by any modifications to the MTP at least 30 days prior to the commencement of the modification.
- (e) An Access Holder must give Queensland Rail sufficient notice of any requested changes to the MTP to enable Queensland Rail to consider the requested changes and, if Queensland Rail agrees to the making of those modifications, to comply with **clause 1.1(d)**.
- (f) Except as otherwise provided in an Access Agreement, the cancellation of a Train Service does not excuse either Queensland Rail or an Access Holder from any relevant obligations under that Access Agreement.

Modifying the MTP

- (g) The MTP may be modified by Queensland Rail, without consultation, where:
 - (i) any of the following apply:
 - (A) an Access Holder requests a long-term change to the times at which its Train Service/s operate, provided that change is within the scope of its Train Service Entitlement;
 - (B) an Access Holder requests to run an Ad Hoc Train Service;
 - (C) Queensland Rail creates a new or additional passenger Train Service, or modifies the times at which its passenger Train Services are scheduled in the MTP;

- (D) a new or additional Train Service Entitlement has been created (through the signing of an Access Agreement, or an amendment to an Access Agreement);
 - (E) Queensland Rail wishes to change the time at which a Train Service operates provided that change is within the scope of the relevant Access Holder's Train Service Entitlement;
 - (F) Queensland Rail alters (including reduces or resumes) all or part of an Access Holder's Train Service Entitlement in accordance with that Access Holder's Access Agreement, provided that the modification does not result in any other Access Holder's scheduled Train Services not being met;
- (ii) the modification is intended to accommodate any Operational Constraint;
- ~~(iii)~~ (iii) a Planned Possession is cancelled; or
- ~~(iii)~~ (iv) in Queensland Rail's opinion no Access Holders are adversely affected by the modification.
- (h) The MTP may be modified by Queensland Rail where Queensland Rail wishes to make a long-term change to the times at which one or more scheduled Train Services operate, provided that:
- (i) the modification is intended to accommodate:
 - (A) the creation of a new, additional, or modified Train Service Entitlement (through the signing of an Access Agreement, or an amendment to an Access Agreement) where that new or additional Train Service Entitlement cannot, in Queensland Rail's opinion, otherwise be reasonably accommodated in the MTP; or
 - (B) a new, additional or modified Queensland Rail passenger Train Service, where that service cannot, in Queensland Rail's opinion, otherwise be reasonably accommodated in the MTP; and ~~er~~
 - ~~(C) — any other Operational Constraint affecting the MTP; and~~
 - (ii) where the modification would result in an Access Holder's scheduled Train Services not being met, Queensland Rail:
 - (A) has consulted with that Access Holder; and
 - (B) to the extent that the modification is not within the scope of that Access Holder's Train Service Entitlement, has agreed the modifications with that Access Holder (such agreement not to be unreasonably withheld).
- (i) The MTP may be modified by Queensland Rail, where Queensland Rail wishes to make a long-term change to the times at which one or more scheduled Train Services operate due to a new or modified Planned

Possession, provided that where the modification would result in an Access Holder's scheduled Train Services not being met, Queensland Rail:

- (i) has consulted with that Access Holder; and
 - (ii) to the extent that the modification is not within the scope of that Access Holder's Train Service Entitlement, has used reasonable endeavours to mitigate the adverse impacts on that Access Holder.
- (j) The MTP may be modified by Queensland Rail where Queensland Rail and all affected Access Holders agree to the modification provided that where Queensland Rail seeks such a modification it:
- (i) invites affected Access Holders to consider the modification in an appropriate forum¹⁹; and
 - (ii) gives each of those parties a copy of the proposed modification five Business Days prior to the scheduled consideration of the modification.
- (k) For clarity, Queensland Rail may modify the MTP under any one of **clauses 1.1(g) to (j)** even if Queensland Rail cannot do so under, or does not comply with, any of the other of those clauses in respect of that modification.

1.2 Daily Train Plan Principles

- (a) The DTP will indicate all scheduled Train Services and Planned Possessions in a form that indicates the time/distance (location) relationship of all activities,
- (b) The DTP represents an expected performance target that each Access Holder must comply with for its Train Services, for a particular day of operation for a specified part of the Network.
- (c) At least one Business Day prior to the day of operation, Queensland Rail will schedule the DTP and provide all relevant Access Holders and Infrastructure Service Providers with a copy of that DTP.
- (d) Except as otherwise provided in an Access Agreement, the cancellation of a Train Service does not excuse either Queensland Rail or an Access Holder from any relevant obligations under an Access Agreement.

Scheduling the DTP in variation from the MTP

- (e) The DTP may be scheduled in variation to the MTP by Queensland Rail, without consultation, where, at least two Business Days prior to the day of operation, and prior to the DTP being scheduled:
 - (i) any of the following apply:

¹⁹ This could include a face-to-face meeting, a telephone conference or any other forum that provides the affected parties with the best opportunity to participate.

- (A) an Access Holder requests a short-term change to the times at which any of its Train Services, as scheduled in the MTP, operate;
 - (B) an Access Holder requests to run an Ad Hoc Train Service; or
 - (C) Queensland Rail modifies the times at which any of its passenger Train Services, as scheduled in the MTP, operate,
- provided that the variation does not result in any other Access Holder's scheduled Train Services not being met; or
- (ii) a Planned Possession is cancelled.
- (f) The DTP may be scheduled in variation from the MTP by Queensland Rail where at least two Business Days prior to the day of operation, and prior to the DTP being scheduled, Queensland Rail wishes to make a short-term change to the times at which one or more scheduled Train Services operate, provided that:
- (i) the change is intended to accommodate:
 - (A) the modification of an existing Planned Possession;
 - (B) the creation of an Urgent Possession; or
 - (C) any other Operational Constraint affecting the DTP; and
 - (ii) where the variation would result in an Access Holder's scheduled Train Services not being met, Queensland Rail has consulted with that Access Holder.
 - ~~(A) — has consulted with that Access Holder; and~~
 - ~~(B) — to the extent that the modification is not within the scope of that Access Holder's Train Service Entitlement, has agreed the modifications with that Access Holder (such agreement not to be unreasonably withheld).~~
- (g) The DTP may be scheduled in variation from the MTP by Queensland Rail where at least two Business Days prior to the day of operation, and prior to the DTP being scheduled, Queensland Rail makes a short-term change to the times at which one or more scheduled Train Service/s operate, whether or not within the scope of the applicable Access Holders' Train Service Entitlement, for the purpose of accommodating an Emergency Possession provided that where the variation would result in an Access Holder's scheduled Train Services not being met, Queensland Rail has consulted with that Access Holder.
- (h) The DTP may be scheduled in variation from the MTP by Queensland Rail where at least two Business Days prior to the day of operation, and prior to the DTP being scheduled, Queensland Rail and all affected

Access Holders agree to the modification provided that where Queensland Rail seeks such a modification Queensland Rail:

- (i) invites affected Access Holders to consider the variation in an appropriate forum²⁰, at least 36 hours prior to the day of operation; and
 - (ii) gives each of those parties a copy of the proposed variation at least 12 hours prior to the scheduled consideration of the variation.
- (i) For clarity, Queensland Rail may schedule the DTP in variation from the MTP under any one of **clauses 1.2(e) to (h)** even if Queensland Rail cannot do so under, or does not comply with, any of the other of those clauses in respect of that modification.

Making modifications to the DTP once scheduled

- (j) Queensland Rail may make modifications to the scheduled DTP on a case by case basis without the need for consultation:
 - (i) where:
 - (A) before the day of operation, Queensland Rail receives a request from an Access Holder to run an Ad Hoc Train Service; or
 - (B) before a Train Service commences operation, the Access Holder requests a change to the time at which its Train Service will operate and that change is within the scope of the Access Holder's Train Service Entitlement,provided that the modification does not result in any other Access Holder's scheduled Train Services not being met; or
 - (ii) where, before the commencement of a relevant Train Service, Queensland Rail notifies the Access Holder that an Emergency Possession is required.

2 Train Control Principles

Objective

- (a) The prime objective of Train Control is to facilitate the safe running of Train Services, and the commencement and completion of Possessions, as scheduled in the DTP.
- (b) Queensland Rail will manage the Network based on entry/exit times as specified in the DTP with the objectives of managing Train Services according to their schedule for on time exit, not contributing to late running and, if a Train Service is running late, making up time and holding the gain where reasonably possible.

²⁰ This could include a face-to-face meeting, a telephone conference or any other forum that provides the affected parties with the best opportunity to participate.

- (c) A deviation from the DTP by Queensland Rail and/or an Access Holder on the day of running in accordance with this **clause 2** does not necessarily excuse either party from any relevant obligations relating to the conduct in question.

Access Holders

- (d) Access Holders must ensure that Above Rail issues, including Train crewing, locomotive and wagon availability and loading and unloading requirements, are appropriately managed to ensure that such issues do not adversely affect the DTP.

Provision of Train Control information

- (e) Queensland Rail will provide an Access Holder with:
 - (i) real time Train Control information that indicates actual running of that Access Holder's Train Services against the relevant DTP;
 - (ii) subject to reasonable terms and conditions, access to Train Control diagrams that indicate actual running of that Access Holder's Train Services against the relevant DTP; and
 - (iii) subject to reasonable terms and conditions, information about the type of Train Services operated on the same network (including, for example, coal, freight, passenger and livestock Train Services) to assist Access Holders to determine whether the Train Controller is applying the principles in this Schedule in a consistent manner between Access Holders.

Traffic Management Decision Making Matrix

- (f) Where the operation of a Train Service differs from the DTP, the Train Controller will apply the Traffic Management Decision Making Matrix in **clause 2(h)**, for the purposes of giving a Train Control Direction.
- (g) In the context of the Traffic Management Decision Making Matrix the meaning of "On Time", "Ahead" and "Late" are determined by the scheduling of paths in the DTP. For example, if a Train Service is travelling in accordance with the DTP path allocated to it, it is running "On Time".

(h) The Traffic Management Decision Making Matrix is as follows:

		Train Service A - Current Status	
		Train Service Running "On Time" or "Ahead"	Train Service Running "Late"
Train Service B - Current Status	Train Service Running "On Time" or "Ahead"	Rule 2	Rule 1
	Train Service Running "Late"	Rule 1	Rule 3

Rule 1. The "Late" Train Service may be given priority provided that the other Train Service will still meet its "On Time" objective, subject to the principles for managing deviations from the DTP in **clause 2(i)**.

Rule 2. Both Train Services must meet their "On Time" objective.

Rule 3. Give priority to the Train Service that (in the Train Controller's opinion), based on its performance, will lose the least time (or make up more time) and hold a greater gain, subject to the principles for managing deviations from the DTP in **clause 2(i)**.

Principles for managing deviations from the DTP

(i) It is necessary for Train Controllers to have sufficient discretion to take into account the varying objectives of different traffic types, and the circumstances of a particular part of the Network, in assessing the priority to be given to Train Services and other activities on the Network. Train Controllers will apply the following principles in managing deviations from the DTP:

- (i) a Train Service may be given priority over other Train Services if it is necessary to do so:
 - (A) due to, or to avoid, an accident, emergency or incident relating to any part of the Network;
 - (B) to remedy, or to mitigate or avoid, the operation of Train Services on any part of the Network being congested, prevented or otherwise materially adversely affected;
 - (C) to remedy, or to mitigate or avoid, any Emergency Possession or Urgent Possession on any part of the Network being prevented or otherwise materially adversely affected;
 or

- (D) to ensure the safe operation of any part of the Network;
- (ii) subject to **clause 2(i)(i)**, passenger Train Services may be given priority over other Train Services if the Train Controller believes that this is necessary to seek to:
 - (A) bring a “Late” passenger Train Service back to being “On Time”; or
 - (B) avoid an “On Time” or “Ahead” passenger Train Service from becoming a “Late” passenger Train Service;
- (iii) subject to **clause 2(i)(i)**, livestock Train Services may be given priority over other Train Services if the Train Controller believes that this is desirable taking into consideration the livestock being transported (including, for example, the welfare of the livestock);
- (iv) subject to **clauses 2(i)(i) to (iii)**, a Train Service may be given priority over other Train Services if it is necessary to do so to remedy, or to mitigate or avoid, any Planned Possession on any part of the Network being prevented or otherwise materially adversely affected; and
- (v) subject to **clauses 2(i)(i) to (iv)**, where a Train Service is running “Late” due to a Below Rail Delay, it may be given preference over other Train Services if the Train Controller believes that this is consistent with the critical objectives of the Train Services in question, and that it will result in less aggregated consequential delays to other Train Services than otherwise would be the case.

Schedule C

Access Agreement Principles

The Access Agreement will:

- (a) apply for a defined period (subject to any earlier termination and any relevant survival of provisions); and
- (b) not include an option for the Access Holder to renew the Access Rights.

3 Accreditation

The Access Holder must or must procure that its Nominated Railway Operator:

- (a) be accredited in accordance with Part 5 of the TRSA in respect of the operation of the relevant Train Services;
- (b) maintain that accreditation during the term of the Access Agreement;
- (c) ensure Queensland Rail is provided with the material details of that accreditation; and

- (d) The Access Holder must:
 - (i) ensure all Trains are equipped with appropriate communication systems; and
 - (ii) provide and maintain all software and hardware, to Queensland Rail's satisfaction, to ensure an effective interface between Queensland Rail's and the Access Holder's information (including communication) systems.
- (e) Queensland Rail will be entitled to treat other Train Services preferentially to the Access Holder's Train Services for the purpose of seeking to:
 - (i) bring a passenger Train Service back to its scheduled running time;

- (ii) minimise any delay experienced by a passenger Train Service; or
- (iii) avoid a passenger Train Service that is operating, is scheduled to operate, or will be scheduled to operate in the Metropolitan Region during any peak period²¹ ~~from~~ becoming delayed.

6 Train operations

6.1 Operation of Train Services and Rolling Stock

- (a) The Access Holder must only operate Train Services in accordance with the Access Agreement unless the Access Holder has obtained Queensland Rail's prior written consent.
- (b) The Access Holder is responsible for the operation of Rolling Stock on the Network (including for ensuring the safe operation of Rolling Stock).
- (c) The Access Holder must comply with all applicable Laws, safeworking procedures and safety standards, the Operating Requirements Manual and all other train operation requirements in the Access Agreement.

- (e) If the Access Holder is not able to operate a Train Service in accordance with its scheduled time, then:
 - (i) the Access Holder must as soon as practicable notify Queensland Rail that it is not able to operate that Train Service and the reason for its inability; and
 - (ii) Queensland Rail will use reasonable endeavours to provide an alternative schedule time for the relevant Train Service (but is not obliged to do so if this would alter the scheduled time for other Trains or would result in Queensland Rail incurring additional costs or expenses).
- (f) Queensland Rail may collect information in respect of the Access Holder's Rolling Stock which is fitted with an operative digital tag and may provide the Access Holder with access to that information (at the Access Holder's cost). If Queensland Rail collects any such information and provides it to the Access Holder, then Queensland Rail has no responsibility, and is not liable, for the accuracy, completeness or veracity of that information.

²¹ The time periods: (a) from 6:00am to 9:00am; and (b) from 3:30pm to 6:30pm, on Business Days or as otherwise notified by Queensland Rail (acting reasonably) from time to time.

- (g) The Access Holder must ensure the operation of the Rolling Stock (including loading, unloading and cleaning):
 - (i) does not affect the safe operation of the Rolling Stock or the Network or the operations or activities of Queensland Rail or other Rail Transport Operators; and
 - (ii) is such that all things on or in the Rolling Stock remain on or in the Rolling Stock (including secured in position) during transit.

6.2 Authorisation of Rolling Stock and Train Configurations

- (a) The Access Holder must obtain certification for the Access Holder's Rolling Stock and Train Configurations from an appropriately qualified person approved by Queensland Rail. Queensland Rail has a right to view a certificate of compliance and associated test results from an Access Holder in order to satisfy itself that the Rolling Stock and Train Configurations are as agreed by the two parties in the relevant IRMP.
- (b) If the Access Holder wishes to modify any of the Rolling Stock or Train Configurations, then the Access Holder must not use that Rolling Stock or Train Configuration unless and until:
 - (i) the IRMP has been reviewed;
 - (ii) the Access Holder has complied with clause 6.2(a); and
 - (iii) the parties have agreed any amendments to the Access Agreement (including varying the methodology, rates or other inputs for calculating Access Charges) as reasonably necessary, in relation to that Rolling Stock or Train Configuration (as applicable).

~~6.3 Operating requirements~~

- ~~(a) Queensland Rail will provide the Access Holder with the practices, standards, systems, protocols, requirements, rules, policies and other information in relation to or in connection with Train Control and the access to and use of the Network by Access Holders (including interface management and coordination requirements, safeworking procedures, safety standards, emergency and investigation procedures, requirements for the management of Incidents and environmental requirements) as published from time to time by Queensland Rail (**Operating Requirements**).~~
- ~~(b) Queensland Rail may amend the Operating Requirements from time to time, but must consult with the Access Holder before doing so if Queensland Rail considers that the amendments may materially adversely affect the Access Holder.~~

6.46.3 Entering and exiting the Network

The Access Holder is solely responsible for and bears the cost and risk of obtaining any rights to access or use Private Infrastructure and the Access

Holder is not relieved of any obligation under the Access Agreement if the Access Holder cannot obtain any such rights.

6.56.4 Notification of damage or disrepair

The Access Holder must notify Queensland Rail of any damage or disrepair or failure in operation or function of any part of the Network of which the Access Holder becomes aware.

7 Interface risk management

(a) The Access Holder must use reasonable endeavours to not do anything or permit anything to be done what would give rise to Interface Risks not addressed in the relevant IRMP. If the Access Holder does or permits such anything, then the Access Holder must notify Queensland Rail as soon as practicable.

~~(a)(b) The parties must comply with the relevant IRMP and e~~ Each party must notify the other party of any non-compliance that it becomes aware of (including details of how it has rectified or intends to rectify that non-compliance).

~~(b)(c)~~ The Access Agreement must provide a process for the regular review of the relevant IRMP by the parties.

~~(e)(d)~~ If the parties do not agree any matter in relation to such a review, that disagreement may be referred to dispute resolution under the Access Agreement.

8 Environmental and emergency management plan requirements

8.1 Dangerous goods

(a) The Access Holder must not carry, or permit to be carried, Dangerous Goods except:

(i) as expressly provided in the Access Agreement; or

(ii) with the prior permission of Queensland Rail given in accordance with the Access Agreement.

(b) If the Access Holder wishes to obtain Queensland Rail's permission to carry Dangerous Goods, the Access Holder must first satisfy Queensland Rail, acting reasonably, that:

(i) carrying the relevant Dangerous Goods in the manner proposed by the Access Holder is permitted under all relevant Laws and Authorities and any applicable Dangerous Goods Code;

(ii) any Authorisations required under any applicable Law or Dangerous Goods Code have been obtained and are available for inspection by Queensland Rail if requested; and

- (iii) all Laws, including Authorisations, applicable in relation to those Dangerous Goods and all requirements of any applicable Dangerous Goods Code are complied with.
- (c) Unless otherwise expressly provided in the Access Agreement, where Dangerous Goods are permitted to be carried, the Access Holder must ensure that:
 - (i) any Authorisations required under any applicable Law or Dangerous Goods Code have been obtained prior to the operation of the Train Service carrying Dangerous Goods and are available for inspection by Queensland Rail if requested;
 - (ii) all Laws, including Authorisations, applicable in relation to those Dangerous Goods and all requirements of any applicable Dangerous Goods Code are complied with;
 - (iii) Queensland Rail is notified of the details of the Dangerous Goods (including an accurate description of the Dangerous Goods and the applicable Dangerous Goods United Nations (UN) Number) as soon as practicable prior to the operation of a Train Service; and
 - (iv) before any Dangerous Goods are carried on a Train Service, the Access Holder's emergency management plan must include procedures for responding to an incident involving those Dangerous Goods.

8.2 Environmental damage

The Access Agreement must include a process that:

- (a) allows Queensland Rail to notify the Access Holder:
 - (i) of environmental harm as defined in the *Environmental Protection Act 1994* (Qld) (or anything that is likely to result in environmental harm); and
 - (ii) any requirement that Queensland Rail or any relevant Authority considers necessary to prevent, mitigate or remedy that environmental harm; and
- (b) obliges the Access Holder to comply with those requirements and otherwise take whatever action or intervention is required to prevent, mitigate or remedy that environmental harm.

8.3 Emergency management plan

- (a) The Access Holder must develop an emergency management plan that details the procedures for the management of incidents on the Network involving the activities of the Access Holder (including all relevant matters outlined in the Operating Requirements [Manual](#)). The emergency management plan must be compatible with the Access

Agreement and Queensland Rail's emergency procedures and consistent with the prudent practices of an operator of Trains in Australia.

- (b) The Access Holder must obtain a notice from Queensland Rail that it has no objection to the emergency management plan. The Access Agreement must set out a process for obtaining such a notice.

8.4 Obstructions and notifications

- (a) The Access Holder must not cause or contribute to, or permit to continue, any obstruction²² of the Network.
- (b) The Access Agreement must include notification requirements to Queensland Rail's satisfaction in relation to environmental harm, incidents on the Network involving the activities of the Access Holder, Dangerous Goods, obstructions, non-compliance with any safeworking procedures and any similar matter (and including any action or intervention taken or being taken by the Access Holder).
- (c) Queensland Rail may do anything that it considers necessary:
 - (i) to remove, rectify, mitigate or otherwise deal with any obstruction; or
 - (ii) to recommence Train Movements where there is or was an obstruction,

including to move, or remove from the Network, any of the Access Holder's Rolling Stock that is causing or contributing to an obstruction or preventing or hindering Train Movements.

- (d) If Queensland Rail gives a Train Control Direction to the Access Holder to assist in removing, rectifying, mitigating or otherwise dealing with an obstruction caused or contributed to by another Rail Transport Operator, Queensland Rail will reimburse to the Access Holder its reasonable direct costs and expenses of providing such assistance.

9 Noise mitigation

- (a) In addition to any requirements under the IRMP, the Operator must pay a contribution, as reasonably determined by Queensland Rail, to Queensland Rail's costs and expenses relating to any noise mitigation or management measures on the Network, or adjacent land, considered necessary by Queensland Rail either in accordance with Prudent

²² An obstruction is any circumstance (including debris or other things on the Network), which has the potential to cause a disruption to or cancellation by Queensland Rail of Train Services or Train Movements and includes any Network incident (that is, any Rolling Stock derailment or disablement or any breakdown, accident, collision or any other unplanned occurrence on the Network which causes or could cause death or injury to any person, damage to property or environmental harm or a disruption to or cancellation by Queensland Rail of any Train Movement) but does not include an Operational Constraint imposed by Queensland Rail.

Practices or to comply with any noise levels or limits applicable²³ from time to time.

- (b) Queensland Rail will use reasonable endeavours to consult with the Access Holder prior to electing to implement noise mitigation or management measures and to notify the Access Holder of how it will determine the Access Holder's contribution to costs and expenses.

~~9~~10 Inspection and audit rights

- (a) The Access Agreement will specify the reasonable terms and conditions on which Queensland Rail can carry out inspections and audits of the Access Holder's compliance with the Access Agreement and the loading of wagons used in a Train Service.
- (b) Queensland Rail may require the Access Holder, and the Access Holder must comply with Queensland Rail's requirements, to do anything reasonably necessary for Queensland Rail to conduct the inspection or audit including to divert or delay a Train Service or to make any part of a Train available for inspection or weighing.

~~10~~11 Risk and indemnities

(d) No exclusion or limitation of liability or restriction on the making of a claim in the Access Agreement will apply in respect of a claim by one party against the other for monies due and payable in accordance with the Access Agreement.

(e) Without limitation to the matters for which Queensland Rail's liability may be excluded, Queensland Rail's liability in relation to:

- (h) Claims by either party must be lodged within ~~twelve months~~ two years of the occurrence of the event or circumstance giving rise to the claim and must exceed \$500,000 for any one event or cause of action or series of related events or causes of action.
- (i) A party must use best endeavours to give the other party notice and full details of any such claim within 12 months after the event or circumstance giving rise to the claim occurs.

~~42~~13 Default, suspension and termination

The Access Agreement will specify events of default and rights of suspension and termination.

~~43~~14 Insurance

The Access Agreement will provide for insurances to be effected by the Access Holder to appropriately provide for the relevant insurance risks.

~~44~~15 Security

- (a) The Access Holder must provide a security deposit to Queensland Rail in the form of ~~cash or~~ a bank guarantee or other form satisfactory to Queensland Rail (and on terms acceptable to Queensland Rail) to secure the performance of its obligations under the Access Agreement.

- (b) Queensland Rail may review the amount of the security deposit to increase or decrease it as factors relevant to Queensland Rail's risk exposure change.

~~45~~16 Adjustments

- (a) A mechanism will be provided to allow adjustments to the Access Agreement (including, if applicable, by adjusting the relevant Access Charges) where a material change occurs that has a net adverse financial effect on Queensland Rail in relation to it performing its obligations or exercising its rights so that:
 - (i) the net financial effect of the material change on Queensland Rail is removed; and
 - (ii) Queensland Rail is placed in the position it would have been in if the material change had not occurred.
- (b) A material change will include changes in taxes, credits, laws, standards and funding (for example from Transport Service Payments).
- (c) If the parties are not able to agree any adjustments to the Access Agreement, then the matter will be referred to an independent expert for determination as a dispute.
- (d) The Access Agreement may include rate review provisions as referred to in **clause 3.5** of this Undertaking.

~~46~~17 Disputes

- (a) Any dispute between the parties is firstly to be escalated through each party's internal management structure and ultimately to each party's chief executive officer (or the nominee of the chief executive officer). If the dispute is not resolved, then the parties may agree to refer the dispute for resolution by an expert (and must do so if the Access Agreement requires such a referral).
- (b) The dispute resolution provisions must recognise the ability of the Rail Safety Regulator under the TRSA to resolve disputes and must provide that a referral to the Rail Safety Regulator overrides the dispute resolution provisions in the Access Agreement to the extent of any inconsistency with the dispute resolution process in the Access Agreement.
- (c) Queensland Rail will be able to determine disputes in relation to amendments to an IRMP, the safety of persons or property, the environment or the land on which the Network is located (including the use of the Network) if the dispute is not resolved under the Access Agreement by agreement between the parties or by an expert or resolved by the Rail Safety Regulator.

- (d) If a dispute is not resolved by agreement or referral to an expert, then the dispute may be determined by a court.

~~17~~18 Force Majeure Event

- (a) The obligations of a party (other than an obligation to pay monies due) will be suspended where a Force Majeure Event prevents or hinders that party from performing its obligations under the Access Agreement. ~~→~~
- (b) If part of the Network is damaged or destroyed by a Force Majeure Event, Queensland Rail may elect not to proceed with repairs or replacement unless the parties agree as to the funding of the cost of that work.
- (c) The Access Agreement may be terminated if a delay caused by a Force Majeure Event continues for a prolonged period.

~~18~~19 Reduction and relinquishment of Access Rights

~~18.1~~19.1 Reduction of Access Rights

An Access Agreement must include provisions that:

- (a) entitle Queensland Rail to reduce the Access Holder's Access Rights where the Access Holder has under-utilised the Access Rights; and
- (b) set out objective criteria for the purpose of assessing whether the Access Rights are consistently underutilised.

~~18.2~~19.2 Relinquishment

An Access Agreement must include provisions which provide:

- (a) that the relevant Access Holder may relinquish all or part of its Access Rights (whether or not for the purpose of allowing a specified Access Seeker to be granted Access Rights by Queensland Rail that use all or part of the Capacity that will become Available Capacity as a result of the relinquishment (**Relinquished Capacity**)); and
- (b) that any such relinquishment is subject to the Access Holder paying to Queensland Rail a fee:
 - (i) equivalent to the present value (calculated at a discount rate equal to the WACC) of the aggregate of the Take or Pay Charges that would have been payable on and from the date on which the relinquishment will take effect until the end of the term if the relevant Access Rights were not relinquished and the Access Holder did not use those Access Rights; and
 - (ii) if, prior to the date on which the relinquishment will take effect, Queensland Rail has granted Access Rights (with effect on or after that date) to an Access Seeker using the Relinquished Capacity (**New Access Holder**), adjusted to offset the aggregate of the Take or Pay Charges payable by the New Access Holder for all or

part of the same period as that for which the Take or Pay Charges are calculated under **paragraph (i) above** (calculated assuming the New Access Holder does not use the relevant Access Rights) but only to the extent that those Take or Pay Charges are directly attributable to the Relinquished Capacity,

provided that in no circumstances will that fee be less than zero; and

- (c) if applicable, Queensland Rail will facilitate the Access Holder relinquishing Access Rights for the purpose of allowing an Access Seeker nominated by the Access Holder to be granted Access Rights by Queensland Rail, subject to Queensland Rail's requirements in relation to doing so being satisfied.

~~19~~20 Assignment

- (a) Queensland Rail may assign, novate, transfer or otherwise deal with (**Assign**) its rights and obligations under the Access Agreement without the prior consent of the Access Holder. Queensland Rail must give notice to the Access Holder advising the effective date of the Assignment.
- (b) On the Assignee executing and delivering to the Access Holder a deed covenanting to be bound by and to perform Queensland Rail's obligations under the Access Agreement, Queensland Rail will be released and discharged from further liability under the Access Agreement in respect of obligations that the Assignee has undertaken to perform.
- (c) The Access Holder may Assign the whole of its rights and obligations under the Access Agreement with the prior consent of Queensland Rail provided that the Assignee enters into a deed of covenant with Queensland Rail (on terms satisfactory to Queensland Rail) to be bound by and to perform the Access Holder's obligations under the Access Agreement.
- (d) The Access Holder may only mortgage, charge, encumber or otherwise grant any security (**Charge**) over its rights and obligations under the Access Agreement in favour of a person (**Chargee**) if the Access Holder, Chargee and Queensland Rail have entered into a deed of covenant (on terms satisfactory to Queensland Rail) where the Chargee must only exercise rights under the Charge as though the Chargee was the Access Holder.

~~20~~21 Representation and warranties

The Access Agreement may set out representations and warranties given by the Access Holder in favour of Queensland Rail including, for example, that the Access Holder has satisfied itself as to both the standard and suitability of the

Network for the Train Services and the ability of the Access Holder's Rolling Stock to safely interface with, and to operate on, the Network.

~~21~~22 Confidentiality

The Access Agreement may include a confidentiality provision if required by either party.

~~22~~23 Land tenure

- (a) The Access Agreement must include provisions that detail the Access Holder's obligations in relation to complying with the requirements of Queensland Rail's land tenure and to not contribute to Queensland Rail breaching its land tenure obligations.
- (b) If there is any inconsistency between the Access Agreement and a land tenure then the land tenure prevails to the extent of the inconsistency.
- (c) Queensland Rail is not liable to the Access Holder in relation to any amendment, replacement, surrender, termination, expiry or determination of any land tenure.

Parties

Queensland Rail Limited ABN 71 132 181 090 of Level 15, 295 Ann Street, Brisbane, Queensland (**Queensland Rail**)

and

The person set out in **item 1** of **schedule 14** (**Operator**)

Background

- A Queensland Rail operates, and is the Railway Manager for, the Network.
 - B The Operator is seeking, and Queensland Rail has agreed to provide to the Operator, access to the Network for the purposes of the Train Services.
 - C This agreement sets out the terms agreed by the Parties in accordance with which the Operator is granted non-exclusive access to the Network for the Train Services.
-

Agreed terms

1 Term

This agreement:

- (a) commences on the Commencement Date; and
- (b) terminates on the Termination Date (except to the extent that any provisions of this agreement are expressed or implied to survive the expiry or termination of this agreement).

2 Grant

Queensland Rail grants to the Operator the non-exclusive right to operate Train Services on the Network commencing on the Commitment Date until the Termination Date subject to, and in accordance with, this agreement (**Access Rights**).

3 Accreditation

- (a) The Operator must, on the Commitment Date (or such later date as agreed by Queensland Rail) and then for the remainder of the Term, hold the Accreditation necessary for it to operate the Train Services in accordance with this agreement.
- (b) The Operator must:
 - (i) on or before the Commitment Date (or such later date as agreed by Queensland Rail), satisfy Queensland Rail (acting reasonably) of its compliance with **clause 3(a)**; and
 - (ii) ensure that Queensland Rail is and continues to be provided with:
 - (A) all of the material details of that Accreditation that are relevant to the operation of the Train Services or the exercise of rights or performance of obligations under this agreement; and
 - (B) all relevant supplementary material to ensure those details remain correct and complete during the Term (including any notice from an Authority affecting or likely to affect the Operator's Accreditation and the relevant details of any renewal, suspension, amendment, restriction or termination).
- (c) The Operator must not operate Rolling Stock on the Network unless the Operator holds the Accreditation necessary to do so and then must do so in accordance with that Accreditation and this agreement.
- (d) For clarity, the agreement of Queensland Rail to a later date under **clause 3(a)** or **(b)(i)** does not waive, defer or otherwise affect the Operator's obligation to pay Access Charges or any other amount to Queensland Rail in accordance with this agreement.

4 Payment obligations

4.1 Access Charges

- (a) The Operator must pay to Queensland Rail the Access Charges at the times and in the manner set out in this agreement and any other charges or amounts payable in accordance with this agreement.
- (b) Commencing on the Commitment Date:
 - (i) after the last day of each calendar month during the Term; and
 - (ii) where this agreement has expired or terminated, after that expiration or termination,

Queensland Rail will provide to the Operator an invoice for the Access Charges and any other charges or amounts payable by the Operator under this agreement for that month or at or after the time of expiration or termination (as applicable).

- (c) For clarity:
- (i) the amount of the Access Charges will include any adjustments for Queensland Rail Cause calculated in accordance with **schedule 33** and, despite any other term of this agreement, Queensland Rail will not otherwise be liable, and the Operator will have no other right, remedy or Claim against Queensland Rail, in relation to Queensland Rail Cause;
 - (ii) Queensland Rail will review and amend **schedule 33** (including to vary or escalate Access Charges Inputs) from time to time in accordance with this agreement (including the processes set out in **schedule 33** and **clause 16**); and
 - (iii) subject to **clauses 4.1(c)(i)** and **(ii)**, neither the exercise of any right, nor performance or non-performance of any obligation, by Queensland Rail under this agreement affects the Operator's obligation to pay Access Charges or the calculation of those Access Charges.

4.2 Obligation to make payments

- (a) Unless this agreement provides otherwise, the due date for the payment of an amount payable by a Party under this agreement is that date which is ten Business Days from the invoice date (as shown on the invoice) ~~after the date on which that Party receives an invoice~~ for that amount from the other Party.
- (b) After a Party receives an invoice from the other Party for an amount payable in accordance with this agreement the paying Party must, on or prior to the due date for the payment of that amount, either:
 - (i) pay the other Party an amount equal to the amount payable as shown on the invoice; or
 - (ii) if the paying Party disputes on a bona fide basis all or part of the amount payable as shown on the invoice:
 - (A) pay by the due date the amount not in dispute and 50% of the amount in dispute; and
 - (B) give notice in writing to the other Party that it disputes the amount payable as shown on the invoice and a detailed statement as to the reasons for disputing the amount payable.

4.3 Method of payment

A Party must pay any amounts payable to the other Party in accordance with this agreement in Australian currency by:

- (a) direct deposit into an account nominated by the invoicing Party for that purpose; or

- (b) such other method as the invoicing Party may reasonably require from time to time.

4.4 Disputing payments

- (a) If a Party has paid the amounts and given a notice in accordance with **clause 4.2(b)(ii)** then, unless the Parties resolve the dispute in accordance with **clause 17.2**, the dispute must be referred for determination by an Expert under **clause 17.3**.
- (b) Upon resolution of any dispute between the Parties about the calculation of an amount payable as shown on an invoice, if the amount payable as agreed by the Parties or determined by an Expert or a court is more or less than the amount that was paid, then the difference must be paid or refunded by the relevant Party to the other Party within five Business Days after the resolution of the dispute together with interest on that amount calculated in accordance with **clause 4.5** (provided that for the purpose of calculating that interest the due date for payment is deemed to be the date when the amount in dispute would have been due and payable but for the dispute).

4.5 Interest on overdue payments

- (a) If any amount which a Party is required to pay to another Party under this agreement is not paid on or before the due date for payment, interest will accrue on the outstanding amount from the due date for payment until that amount, together with the interest thereon, has been paid.
- (b) Interest will be calculated at the Interest Rate and must be paid monthly. Any interest accrued but unpaid at the end of each month will be capitalised and will thereafter itself bear interest.

4.6 Adjustments

- (a) If any change, escalation or variation in the Access Charges is backdated, or otherwise relates, to a date on or before the date on which particular Train Services were operated in accordance with this agreement, then the Access Charges paid or payable in respect of those Train Services must be adjusted by the Parties to pass through that change, escalation or variation.
- (b) After taking account of the adjustment referred to under **clause 4.6(a)**:
 - (i) if there has been an under-recovery of Access Charges by Queensland Rail, then the Operator must pay the amount of that under-recovery to Queensland Rail; and
 - (ii) if there has been an over-recovery of Access Charges by Queensland Rail, then Queensland Rail must refund the amount of that over-recovery to the Operator.
- (c) For clarity, if Queensland Rail has issued an invoice for Train Services but the Operator has not yet paid that invoice, then Queensland Rail may

issue a replacement or additional invoice for the purposes of giving effect to **clauses 4.6(a) and (b)**.

- (d) Any adjustment of an Access Charge in accordance with this **clause 4.6** will include interest calculated in accordance with **clause 4.5** as though the adjustment was due and payable on the date when that Access Charge was originally due and payable.
- (e) This **clause 4.6** does not apply in relation to an Adjustment Charge (as defined in the Access Undertaking) which is incorporated in any Access Charge in accordance with **schedule 33** and the Access Undertaking.

4.7 Interim take or pay notices

- (a) Queensland Rail may, from time to time, give the Operator a statement of the accrued Take or Pay Charge liability in respect of a particular period. If such a statement is given, Queensland Rail and the Operator will meet, or otherwise discuss, that statement in good faith to seek to agree the accrued Take or Pay Charge liability in respect of that period.
- (b) Queensland Rail may, from time to time, give the Operator a notice under this **clause 4.7(b)** that states the accrued Take or Pay Charge liability in respect of a particular period (**Interim Take or Pay Notice**).
- (c) An Interim Take or Pay Notice is taken to be conclusive evidence of the accrued Take or Pay Charge liability in respect of the relevant period, subject to the resolution of any dispute by the Operator in respect of that Interim Take or Pay Notice.
- (d) If the Operator wishes to dispute any matter set out in an Interim Take or Pay Notice, then any Dispute Notice to be given by the Operator under **clause 17** must be given within ten Business Days (or such longer period as agreed by Queensland Rail) after the relevant Interim Take or Pay Notice was given to the Operator. Where the Operator does not give a Dispute Notice within that time period, the Operator is taken to agree that the matters in the relevant Interim Take or Pay Notice are correct.
- (e) Where an Interim Take or Pay Notice is disputed under **clause 4.7(d)** and that dispute has been finally resolved in a way that requires amendments to that Interim Take or Pay Notice, then Queensland Rail will give the Operator an amended Interim Take or Pay Notice (to replace the original Interim Take or Pay Notice) that is consistent with the resolution of the dispute.
- (f) Where two or more Interim Take or Pay Notices relate in whole or part to the same period:
 - (i) if there is any inconsistency between those Interim Take or Pay Notices in respect of that period, then the most recent Interim Take or Pay Notice prevails to the extent of that inconsistency; and

(ii) if there is no inconsistency between those Interim Take or Pay Notices in respect of that period, then the Operator has no right to dispute the accrued Take or Pay Charge liability for that period under any of those Interim Take or Pay Notices except to the extent that the Operator still has a right to dispute the earliest of those Interim Take or Pay Notices under **clause 4.7(d)** (including where the Operator has already commenced such a dispute).

~~(e)~~(g) Despite any other provision in this agreement to the contrary and without limitation to **clause 4.7(d)**, the Operator has no right to, and must not, dispute the calculation of a Take or Pay Charge in respect of a Year to the extent that the Take or Pay Charge has been calculated in a manner consistent with the relevant Interim Take or Pay Notices relating to that Year.

[practicable](#) after the Operator becomes aware of that failure or likely failure.

6.3 Compliance with Scheduled Time

The Operator must only operate Train Services in accordance with the applicable Scheduled Times and the relevant Train Schedule unless:

- (a) the Operator is expressly permitted or required to do otherwise in accordance with this agreement, the Operating Requirements [Manual](#), ~~(including the Network Management Principles)~~ or a Train Control Direction; or
- (b) the Parties agree otherwise.

6.4 Alterations to Train Services

- (a) If the Operator is not able to operate a Train Service in accordance with its Scheduled Time, then:
 - (i) the Operator must, as soon as practicable prior to the time when that Train Service was scheduled for operation, notify Queensland Rail that it is not able to operate that Train Service and the reason for its inability; and
 - (ii) if the Operator has complied with **clause 6.4(a)(i)**, then Queensland Rail will use reasonable endeavours to provide an alternative Scheduled Time for the relevant Train Service unless this would:
 - (A) alter the Scheduled Times for other Train Movements; or
 - (B) result in Queensland Rail incurring additional costs or expenses.
- (b) If Queensland Rail provides an alternative Scheduled Time for a Train Service in accordance with **clause 6.4(a)(ii)**, the Operator must notify Queensland Rail immediately whether the Operator accepts that alternative Scheduled Time. If the Operator accepts that alternative Scheduled Time, then the Operator must operate the Train Service in accordance with that alternative Scheduled Time. For clarity, **clause 6.4(a)** does not apply to that alternative Scheduled Time.
- (c) If the Operator is not able to operate a Train Service in accordance with its Scheduled Time or an alternative Scheduled Time made available in accordance with **clause 6.4(a)(ii)** (or has not immediately notified Queensland Rail accepting such an alternative Scheduled Time), Queensland Rail may authorise the operation of another Train Movement at that Scheduled Time.

6.5 Operator to supply information

- (a) The Operator must provide and maintain all software, hardware and associated communication links necessary to ensure, to Queensland Rail's satisfaction, an effective interface between the Operator's and

Queensland Rail's information systems as nominated by Queensland Rail. The interface with Queensland Rail's information systems will be subject to any requirements and controls specified by Queensland Rail (in its absolute discretion) including to protect the integrity and confidentiality of those information systems and the information contained in them.

- (b) The Operator must provide information to Queensland Rail as required in accordance with the Operating Requirements [Manual](#) (including any details in relation to Train Services or contact and other details for interface coordination).

The Operator acknowledges that Queensland Rail does not owe it any duty of care and that it will satisfy itself as to the accuracy, completeness or veracity of the Data which Queensland Rail makes available to it.

6.7 Authorisation of Rolling Stock and Train Configurations

- (a) The Operator must only operate a Train Service using Rolling Stock or a Train Configuration in respect of which the Operator has:
- (i) provided to Queensland Rail:
 - (A) a certificate by a suitably qualified person, approved by Queensland Rail and appointed by and at the cost of the Operator, that the Operator's Rolling Stock and Train Configurations comply with the IRMP; and
 - (B) relevant documentation (including reports on trials and/or commissioning tests) demonstrating to the satisfaction of Queensland Rail that the Operator's Rolling Stock and Train Configurations comply with the IRMP, **(Certification)**; and
 - (ii) obtained from Queensland Rail a notice indicating that Queensland Rail is satisfied with that Certification for the purposes of those Train Services.

If the Operator obtains a notice referred to in **paragraph (ii)** that is subject to conditions (including conditions relating to the period for which that notice will apply), then the Operator must comply with those conditions and must only operate a Train Service in accordance with those conditions and while that notice applies.

- (b) During the Term, if the Operator wishes to modify any of the Rolling Stock or Train Configurations used for Train Services, then the Operator must not use any such Rolling Stock or Train Configurations unless and until:
- (i) the IRMP has been reviewed in accordance with **clause 7** in relation the modified Rolling Stock or Train Configurations;
 - (ii) the Operator has complied with **clause 6.7(a)** in relation to the modified Rolling Stock or Train Configurations, as applicable; and
 - (iii) the Parties have agreed any amendments to this agreement (including varying the methodology, rates or other inputs for calculating Access Charges) reasonably necessary to reflect the authorisation and use of the modified Rolling Stock or Train Configurations on the Network.

6.8 Operating Requirements Manual

- ~~(a) Queensland Rail must make the Operating Requirements available to the Operator. Clauses 6.8(b) to (e) do not commence while:~~
- ~~(i) the rail transport infrastructure (as defined in the TIA) used by Train Services forms part of the Network and the Access Undertaking applies in respect of persons seeking access to it; and~~

- (ii) the Access Undertaking:
 - (A) defines the term 'Operating Requirements Manual'; and
 - ~~(a)~~(B) sets out a process that Queensland Rail must comply with in relation to making amendments to the Operating Requirements Manual.
- (b) Queensland Rail may amend the Operating Requirements Manual from time to time but if in Queensland Rail's opinion (acting reasonably) those amendments will materially adversely affect the Operator then Queensland Rail will only do so after:
 - (i) providing reasonable notice of the proposed amendment to the Operator; and
 - (ii) consulting with the Operator in relation to the amendment.
- (c) A notice issued by Queensland Rail under **clause 6.8(b)** must include details of:
 - (i) the proposed amendments including the proposed implementation date; and
 - (ii) the period during which the Operator can consult with Queensland Rail in relation to the proposed amendments.
- (d) Without limiting the matters that Queensland Rail must consider when deciding whether to proceed with any proposed amendments, Queensland Rail must consider any submissions from the Operator.
- (e) If Queensland Rail amends the Operating Requirements Manual, Queensland Rail must:
 - (i) notify the Operator of the amendments and specify the date on which the amendment will take effect; and
 - (ii) in specifying the date on which the amendment will take effect, allow a reasonable period as determined by Queensland Rail, being not less than ten Business Days, ~~allow a reasonable period of at least ten Business Days~~ for the Operator to amend its processes, procedures and plans to comply with the amended Operating Requirements Manual, except where Queensland Rail requires immediate compliance for safety reasons.
- (f) Clauses 6.8(b) to (d) will not apply to amendments made to the Operating Requirements Manual by Queensland Rail:
 - (i) on safety grounds;
 - (ii) in response to a Material Change; or
 - (iii) if required for the purposes of Queensland Rail implementing a change to the assets, equipment, facilities, infrastructure, processes, procedures or systems used for the purposes of any train management system (including, for example, a Train Control

system or a train protection system) where Queensland Rail (acting reasonably) implements the change for the purpose of improving safety, network capabilities, network capacity or system reliability (or a combination of any of these).

- (g) If Queensland Rail amends the Operating Requirements Manual in accordance with this **clause 6.8**, the Operator must bear its own costs of implementing the proposed amendments including the equipping of Rolling Stock with new or additional equipment or making any other modification to Rolling Stock.
- (h) Queensland Rail has no liability (on any basis whatsoever including in negligence) to the Operator in relation to or as a result of amending the Operating Requirements Manual (including on an interim basis) or the due implementation and observance of an amendment to the Operating Requirements Manual (whether on an interim or final basis) where Queensland Rail believes (acting reasonably and in good faith) in the circumstances and at the time:
 - (i) that compliance with the relevant provisions of the Undertaking in relation to making amendments to the Operating Requirements Manual (or, if applicable, this **clause 6.8**) was required; and
 - (ii) that it was acting in compliance with those provisions of the Undertaking (or, if applicable, this **clause 6.8**) in amending the Operating Requirements Manual.

6.9 Entering and exiting the Network

- (a) The Operator is solely responsible for and bears the cost and risk of obtaining and maintaining any rights to access or use Private Infrastructure that are necessary in order to enter or exit the Network or otherwise operate the Train Services in accordance with this agreement.
- (b) Despite any other provision in this agreement, the Operator is not relieved of any obligations under this agreement (and must continue to comply with all of its obligations under this agreement) even if the Operator cannot or does not obtain or maintain any such rights.

6.10 Notification of damage or disrepair

The Operator must notify Queensland Rail as soon as practicable of any damage to, disrepair of or failure in the operation or function of any part of the Network of which the Operator becomes aware.

~~7~~(a) Each Party must observe and comply with the IRMP.

~~(a)~~(b) The Operator must use reasonable endeavours to not do anything or permit anything to be done which may give rise to Interface Risks that are not addressed in the IRMP. If the Operator does something or permits something to be done that gives rise to, or is likely to give rise to,

Interface Risks that are not addressed in the IRMP, the Operator must notify Queensland Rail as soon as practicable after that thing is done or permitted to be done.

~~(b)~~(c) If a Party fails to comply with the IRMP it must notify the other Party of the non-compliance as and when it becomes aware of such non-compliance. The notice must include details of the nature of the non-compliance and how the non-complying Party has rectified or intends to rectify the non-compliance.

~~(e)~~(d) The Parties must upon the reasonable request at any time by either Party, but no less than once in any ~~twelve~~12 month period, jointly review the IRMP, and amend it (including by replacing it) as necessary, to ensure all Interface Risks are effectively managed including by:

- (i) adopting and implementing appropriate controls and measures to adequately address all Interface Risks;
- (ii) identifying the Party responsible for the implementation of such controls and measures and ensuring their ongoing effectiveness;
- (iii) identifying the applicable safeworking procedures and safety standards to be adhered to including Queensland Rail's safety policies and procedures and the Operating Requirements Manual;

~~(d)~~(e) For the purposes of a review referred to in **clause 7(d)**:

- (i) if either Party is not satisfied that all relevant Interface Risks have been identified for the IRMP, then the Parties will undertake a joint Interface Risk Assessment as part of such a review; and
- (ii) if the Parties are not able to agree any matter in relation to such a review, either Party may treat that inability to agree as a Dispute for the purposes of **clause 17**.

~~(e)~~(f) Where the IRMP identifies that training of the Operator's Associates is required and the Operator can only obtain that training from Queensland Rail, then:

- (i) Queensland Rail will provide the Operator with that training; and
- (ii) the Operator must pay to Queensland Rail a reasonable commercial charge, as determined by Queensland Rail, for doing so.

(g) For clarity, the Operator must not use any Rolling Stock or Train Configuration in operating a Train Service unless the IRMP has either been:

- (i) prepared on the basis of the Train Services being operated using that Rolling Stock or Train Configuration (as applicable); or
- (ii) reviewed in accordance with this **clause 7** in relation to that Rolling Stock or Train Configuration (as applicable).

8 Environmental and emergency management plan requirements

8.1 Dangerous Goods

The Operator must not carry Dangerous Goods on any Train Service.

8.2 Environmental damage

Where Queensland Rail becomes aware of:

- (a) any:
 - (i) Environmental Harm; or
 - (ii) event, circumstance, condition, operation or activity which it is reasonably foreseeable is likely to result in Environmental Harm, as a result of the activities of the Operator, which in Queensland Rail's opinion (acting reasonably), could result in Queensland Rail or any other person incurring any liability or being subjected to a direction of any Authority (**Damage**); and
 - (b) Queensland Rail:
 - (i) considers that action or intervention is required; or
 - (ii) is given a direction by an Authority that action or intervention is required,to prevent, mitigate or remedy that Damage,

- (i) the Operator must notify Queensland Rail and provide Queensland Rail with details of the proposed amendments and the reasons for them;
 - (ii) **clauses 8.3(a) to (c)** will also apply in respect of those amendments as if they were a proposed Operator's Emergency Management Plan; and

- (iii) those amendments will not be effective unless and until the Operator has obtained a notice from Queensland Rail that it has no objection to those amendments.
- (e) The Operator must ensure procedures are in place, and are implemented, which ensure compliance by the Operator with any reporting requirements in the Operator's Emergency Management Plan and, to the extent relevant, the Queensland Rail Emergency Procedures.

 - (ii) to recommence Train Movements where there is or was an Obstruction,

including to move, or remove from the Network, any of the Operator's Rolling Stock that is causing or contributing to an Obstruction or preventing or hindering Train Movements. To the extent that an Obstruction is caused or contributed to by the Operator, the Operator must pay Queensland Rail's costs and expenses incurred by Queensland Rail in relation to that Obstruction (including costs and expenses for doing anything under this **clause 8.4(b)**) and those costs and expenses will be a debt due and owing by the Operator to Queensland Rail.

- (c) Queensland Rail will use reasonable endeavours to consult with the Operator, prior to exercising any right under **clause 8.4(b)**, where Queensland Rail intends to interfere with the Operator's Rolling Stock or any other thing for which the Operator is responsible. A failure by Queensland Rail to consult with the Operator does not affect the validity of anything done by Queensland Rail under **clause 8.4(b)**.
- (d) ~~The Operator is liable, and indemnifies Queensland Rail, for all Losses suffered or incurred by Queensland Rail in relation to any Obstruction caused or contributed to by the Operator in removing any Rolling Stock.~~ If Queensland Rail gives a Train Control Direction to the Operator to assist Queensland Rail to remove, rectify, mitigate or otherwise deal with an Obstruction caused or contributed to by another Rail Transport Operator (including to use any of the Operator's Rolling Stock to move, or remove from the Network, any Rolling Stock of another Rail Transport Operator), Queensland Rail will reimburse to the Operator its reasonable direct costs and expenses of providing such assistance.

8.5 Notification

- (a) Queensland Rail will notify the Operator of any Network Incident that may reasonably be expected to materially adversely affect the Operator's Train Services as soon as practicable after the Network Incident comes to Queensland Rail's attention.
- (b) As soon as practicable after the Operator or the Operator's Associates become aware of:

8.6 Noise mitigation

- (a) In addition to any noise mitigation or management requirements under the IRMP, the Operator must pay to Queensland Rail a contribution, as reasonably determined by Queensland Rail, to the costs and expenses incurred by Queensland Rail in relation to any noise mitigation or management measures on the Network, or land adjacent to the Network, that are considered necessary by Queensland Rail:
 - (i) in accordance with Prudent Practices; or
 - (ii) to comply with any noise levels or limits applicable from time to time.
- (b) Queensland Rail will use reasonable endeavours:
 - (i) to consult with the Operator prior to Queensland Rail electing to implement noise mitigation or management measures on the Network, or land adjacent to the Network, to comply with any applicable noise levels or limits from time to time; and
 - (ii) to notify the Operator of how it will determine the Operator's contribution to its costs and expenses in relation to any noise mitigation or management measures.

- (i) applies to the extent that a Reference Tariff applies to the Train Services (including where a relevant Reference Tariff is approved by the QCA after the Commencement Date); and
 - (ii) does not apply where there is no Reference Tariff that is applicable to the relevant Train Services.
- (b) **Schedule 33** must be reviewed by Queensland Rail as soon as practicable after a Reference Tariff Provision, or any change in a Reference Tariff Provision, is approved by the QCA from time to time. For clarity, Queensland Rail is not obliged to conduct such a review where there ceases to be a Reference Tariff that is relevant to the Train Services.
- (c) The purpose of the review under this **clause 16.1** is to determine the amendments to **schedule 33** that are necessary to ensure **schedule 33** remains consistent with the Reference Tariff Provisions—to the extent that **schedule 33** was consistent with those Reference Tariff Provisions at the Commencement Date (and always subject to any differences referred to in **clause 16.1(d)(ii)**).

- (i) any relevant new or varied Reference Tariff;
 - (ii) the differences between the relevant Train Service and the Reference Train Service defined in the relevant Reference Tariff Provision; and
 - (iii) any other relevant provisions of the Access Undertaking.
- (e) After Queensland Rail's review of **schedule 33**, Queensland Rail must notify the Operator of the amendments to **schedule 33** that will apply and the date from which those amendments take effect (**Amendment Notice**). For clarity, the amendments may take effect retrospectively, but must not take effect prior to the time when the relevant Reference Tariff Provision, or amendments to the relevant Reference Tariff Provision, take effect as approved by the QCA.
- (f) If the Operator does not accept some or all of the amendments in the Amendment Notice, then:
- (i) the Operator may only give Queensland Rail a Dispute Notice within **ten** Business Days after being given that Amendment Notice; and

- (ii) if the Operator gives such a Dispute Notice and the Parties do not resolve the Dispute in accordance with **clause 17.2**, the Dispute must be referred for determination by an Expert under **clause 17.3**.

(g) For clarity, in this **clause 16.1** a reference to **schedule 33** includes each other provisions (including defined terms) of this agreement relevant to **schedule 33** but only to the extent that they are directly necessary for the application, or interpretation, of **schedule 33**.

16.2 Relationship to clause 2.1 of schedule 3

For clarity, clause 2.1 of schedule 33 and clause 16.1 must not be applied in a manner that will result in any part of an Access Charge Input being escalated twice for the same period based on the change in CPI over that period.

16.216.3 Adjustment for a Material Change

- (a) This **clause 16.3** does not apply in relation to a Material Change to the extent that the Net Financial Effect of that Material Change has been, or will be, removed as a result of:

Schedule 3

Calculation of Access Charges and other charges

1 Access Charge Inputs

(a) The Access Charge Inputs (as at the Commencement Date) to apply for specific Train Services are as set out below.

Origin	Destination	Access Charge Inputs		
		Variable rate AT ₁ (\$/1000gtk)	Fixed rate AT ₂ (\$/Train Path)	QCA Levy ⁶ QL (\$/Net Tonne 1000gt k)

	Access Charge Input
<u>Miscellaneous train services⁷</u>	<u>Miscellaneous train service rate</u> <u>(\$/tkm⁸)</u>
<u>Unscheduled repositioning of Rollingstock within the Applicable Network described in schedule 22.</u>	
<u>All other such relocations and movements</u>	

⁶ The QCA Levy is a fee imposed by the QCA ~~from time to time~~ on the beneficiaries of the QCA's regulatory services. This levy will be reviewed and endorsed by the QCA annually.

⁷ For clarity, a miscellaneous train service to which the miscellaneous train service rates apply will be treated as a special type of ad hoc train service for the purposes of this agreement including the application of the Network Management Principles and are comprised in 'Ad Hoc Train Services' as referred to under the Network Management Principles.

⁸ Where tkm is a reference to train kilometre – that is, each kilometre or part thereof travelled on the Network by the Train(s) or Rollingstock involved. For example, if the relevant miscellaneous train service rate is \$X/tkm and the total tkm for in respect of those miscellaneous train services is 1000, then the relevant charge will be X multiplied by 1000.

- (b) The Access Charge Inputs will be varied or escalated in accordance with **clauses 2 and 3** of this **schedule 33** and **clause 16**, as applicable.

2 CPI escalation

2.1 Calculation of CPI escalation

Unless otherwise agreed between the Parties, the Access Charge Inputs (other than the QCA Levy), and any other charges or rates expressed in this agreement as being subject to escalation, will escalate on each 1 July during the Term (**Escalation Date**), in accordance with the following formula:

$$ACI_n = ACI_{n-1} \times \left(\frac{CPI_n}{CPI_{n-1}} \right)$$

Where:

ACI_n means the amount of the relevant Access Charge Input (or other charge or rate) that commences to apply on the relevant Escalation Date;

ACI_{n-1} means the amount of the relevant Access Charge Input (or other charge or rate) applicable immediately prior to the relevant Escalation Date;

CPI_n means the CPI for the Quarter which commenced six months prior to the relevant Escalation Date;

CPI_{n-1} means the CPI for the Quarter which commenced 18 months prior to the relevant Escalation Date.

2.2 Review of CPI

- (a) If:
- (i) the basis of assessment of the CPI is altered in a material way; or
 - (ii) the CPI ceases (or is likely to cease) to be:
 - (A) published; or
 - (B) published at sufficiently regular intervals for the purpose of the calculation in **clause 2.1** of this **schedule 33**,

then either Party may notify the other Party that the CPI is required to be replaced.

- (b) After a notice is given in accordance with **clause 2.2(a)** of this **schedule 33**:
- (i) the Parties will negotiate in good faith for the purpose of agreeing to vary or replace the CPI; and
 - (ii) if the Parties fail to agree within 30 days after that notice is given, then the matter must be referred to an Expert for determination in accordance with **clause 17.3**.

- (c) For clarity, if the Parties reach agreement, or the Dispute is resolved, after the relevant Escalation Date, the Parties agree to retrospectively adjust any Access Charges (or other relevant amounts) invoiced since that date to be consistent with that agreement, or the resolution of the Dispute, in accordance with **clause 4.6**.
- (d) This **clause 2.2** is subject to **clause 16.1** and does not apply to the extent that the CPI is, or is proposed to be, varied in accordance with **clause 16.1**.

3 Variation of QCA Levy

Queensland Rail may, from time to time, vary the Access Charge Input for the QCA Levy by giving notice in writing to the Operator of that variation. However, that Access Charge Input must only be varied by Queensland Rail if the QCA:

- (a) requires a change in the QCA Levy;
- (b) has approved a different allocation of the QCA Levy amongst different types of train services; or
- (c) otherwise approves that variation.

4 Calculation of invoice for access

4.1 Invoice calculations

The amount of the invoice for charges payable by the Operator to Queensland Rail under this agreement for a relevant month is calculated in accordance with the following formula:

$$TC = AC \times (1 + GST) + G$$

where:

- TC** is the total amount of charges payable by the Operator for the relevant month;
- AC** is the sum of VC, FC and QCAL for each Train Service for the relevant month and, if the relevant month is:
 - (a) the last month of the Year; or
 - (b) the month in which this agreement has expired or terminated,
 TP;
- FC** is the fixed charge component for the relevant Train Service calculated by the formula:

$$AT_2 \times rtp$$

where:

rtp has the meaning given to that term in the Access Undertaking in relation to the relevant Train Service; and

AT₂ is the amount specified as such in **clause 1** of this **schedule 33** for the relevant Train Service applicable for the relevant month as escalated, or varied, from time to time in accordance with this agreement;

VC is the variable charge component for the relevant Train Service calculated by the formula:

$$AT_1 \times \frac{gtk}{1000}$$

where:

gtk is the gross tonne kilometres for the relevant Train Service calculated in accordance with **clause 5.2** of this **schedule 33**; and

AT₁ is the amount specified as such in **clause 1** of this **schedule 33** for the relevant Train Service applicable for the relevant month as escalated, or varied, from time to time in accordance with this agreement;

QCAL is the QCA Levy component for the relevant Train Service which is calculated by the formula:

$$QL \times nt$$

where:

QL is the amount specified as such in **clause 1** of this **schedule 33** for the relevant Train Service applicable for the relevant month as varied from time to time in accordance with this agreement; and

nt is the net tonnes for the relevant Train Service calculated in accordance with **clause 5.3** of this **schedule 33**;

TP is the take or pay charge for the relevant Year which is the greater of zero and the amount calculated by the formula:

$$\left(\left(AT_1 \times \frac{gtk}{1000} \right) + AT_2 \right) \times NTNO \times 0.8$$

where:

AT₁ is the amount specified as such in **clause 1** of this **schedule 33**, as escalated, or varied, from time to time in accordance with this agreement, for the relevant Train Service as applicable on the last day of the relevant Year;

AT₂ is the amount specified as such in **clause 1** of this **schedule 33**, as escalated, or varied, from time to time in

accordance with this agreement, for the relevant Train Service as applicable on the last day of the relevant Year;

gtk is the average gross tonne kilometres for the relevant Train Services calculated in accordance with **clause 5.2** of this **schedule 33**; and

NTNO is the amount calculated by the formula:

$$\text{NTNO} = \text{TSEY} - \text{TSOY} - \text{TSQRCY}$$

where:

TSEY is the number of Train Services that the Operator was entitled to operate for the Year under this agreement;

TSOY is the number of Train Services that the Operator operated for the Year under this agreement; and

TSQRCY is the number of relevant Train Services which failed to operate for the Year under this agreement due to a Queensland Rail Cause;

GST is the rate of GST (expressed as a decimal) applicable at the time the supply is made; and

G is the sum of any other amount due and payable under this Agreement including charges for GST not already factored in by the formula for AC including, but not limited to, interest, payment for ad-hoc [train services](#) and miscellaneous train services not calculated in AC above, any Adjustment Charges (as defined in the Access Undertaking) and any other adjustments (positive or negative).

5 Interpretation

5.1 Train Services operate in the period in which they commence to operate

For the purposes of **clause 4.1** of this **schedule 33**, a Train Service is taken to have operated in the month or a Year in which it commenced operation from its origin even if that Train Service does not reach its destination until the next month or Year.

5.2 Gross tonne kilometres

(a) The gross tonnes (**gt**) for a Train Service is calculated as the sum of:

- (i) the maximum gross mass as specified in the Train Control System for each locomotive comprised in the Train Service;
- (ii) if the Train Service is operated loaded or partly loaded, the maximum gross mass as specified in the Train Control System for each wagon comprised in the Train Service [\(for clarity, an empty](#)

[wagon in a loaded Train Service will be treated as a loaded wagon](#));

- (iii) if the Train Service is operated empty, the tare mass as specified in the Train Control System for each wagon comprised in the Train Service; and
 - (iv) for all other Rolling Stock, the maximum gross mass specified in the Train Control System for each item of such Rolling Stock comprised in the Train Service.
- (b) The gross tonne kilometres (**gtk**) for a Train Service is determined as:
- (i) the multiple of the gt for the Train Service and the distance travelled in kilometres by the Train Service, provided that there has been no change in the gt of the Train Service over the relevant haulage distance being assessed; or
 - (ii) where there has been a change in gt for the Train Service over the relevant haulage distance ([refer to average haul distance as listed in schedule 22](#)) being assessed, the gtk must be determined separately for each part of the haulage distance for which there is a different gt and then each such gtk is aggregated to determine the total gtk for the Train Service over the relevant haulage distance.

5.3 Net tonnes

The net tonnes (**nt**) for a Train Service is equal to the gt for the Train Service calculated in **clause 5.2(a)** of this **schedule 33** less the sum of:

- (a) the maximum gross mass as specified in the Train Control System for each locomotive comprised in the Train Service;
- (b) the tare mass as specified in the Train Control System for each wagon comprised in the Train Service; and
- (c) for all other Rolling Stock, the tare mass specified in the Train Control System for each item of such Rolling Stock comprised in the Train Service.
