**JUNE 2016**

## **ANGLO AMERICAN RESPONSE**

Thank you for the opportunity to provide a response to the Aurizon Network May 2016 Extension DAAU.

In the interests of an expedited resolution of the transitional and final reference tariffs, including revenue cap adjustments, and in anticipation of a final approved 2014 AU 'UT4' by 30 June 2016, Anglo American supports the basis for dealing with these matters in the May 2016 Extension DAAU submitted by Aurizon Network (whilst reserving its rights in respect of the other related but not yet approved aspects referred to therein) and otherwise supports the QRC regarding its submission on the EC.
